Unbelievable Home on nearly 2 acres - Escape the ordinary on nearly 2 acres with a beautifully remodeled home and an incredible shop that every car enthusiast or hobbyist will love. Nearly-2,000 sq ft home has been thoughtfully updated with the big-ticket items already done for you, including roof, insulation, and more, so you can simply move in and relax. The interior was reimagined in a clean, airy modern Scandinavian style, with a leathered granite fireplace hearth as a striking focal point. The current layout features one spacious bedroom plus an additional large flex room that could easily function as a second bedroom, guest suite, office, studio, or second living area, depending on your needs. Original door openings remain in place behind the drywall, giving future owners options to reconfigure back to a more traditional 3-bedroom setup if desired. The primary suite is rich and moody, wrapped in a gorgeous olive green for a cocooning feel, and the spa-like bathroom offers a floating vanity and a serene, modern aesthetic. Outside, a fenced backyard provides a private, contained space for pets or play. The oversized shop is a standout feature: perfect for car projects, woodworking, or any serious hobby, and it even includes its own bathroom for added convenience. With plenty of room to spread out, work, and unwind-both indoors and out-this property is a rare blend of style, function, and flexibility.
