Hi all,

Firstly, thank you to all players who attended our recent 15th and 17th Grade Girls Academy trials. The standard across both age groups was extremely high and the sessions were very competitive, which made the selection process particularly challenging for our coaching staff.

We appreciate the time, effort and courage it takes to attend Team Selection sessions. Every player represented themselves and their families with positive attitudes, strong work ethic and a willingness to learn, which reflects very well on your development and on your previous environments.

Selected Players

Congratulations to those who have been offered a place in the Academy programme for 2026. This is a reflection of your current level, your potential, and your performance across the Team selection process, plus past performances in 2025 and club programmes. Selection is not an end point. It is the beginning of a demanding development environment where players will be expected to train consistently, show strong habits, and continue to earn their place each week.

Non-Selected Players

To those who have not been selected on this occasion, we fully understand this will be disappointing. Please know that the decision was not a judgement on your character or long-term potential. In such a strong and competitive group, small margins separated players and there were many difficult calls.

Player development is not linear and selections at this age do not determine future outcomes. We strongly encourage you to continue training, playing, and seeking feedback. Many players move in and out of programmes over time as they grow physically, technically and mentally.

If you attended the Team Selection sessions and your name is not here, we will place you in an appropriate team, once registered.

Thank you again to all players and families for your commitment to the process and for the positive manner in which the trials were conducted.

We look forward to supporting every player in their ongoing football journey.

Kind regards,
Cashmere Technical Football Club
