

Wood Chipper

PC-2000-SEH

**Standard wood chipper with
large capacity and high quality.**

The machine's robust construction
makes it effective at handling heavy
logs, small branches, and brushwood.

Valuable details

Infinitely variable swivel spout

The spout can be rotated continuously through 320° via a handle made of electrogalvanized steel.

Feed rollers

Horizontally positioned feed rollers with a hydraulic motor on each roller provide the best retention of the log. The speed can be adjusted continuously.

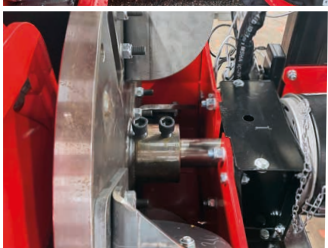

Horizontal Feed

The horizontal twin-feed rollers ensure a robust structure and strong grip on the wood. The adjustable feed speed allows for smooth and controlled operation.

Hydraulic Oil Motor

The feed rollers are powered by a solid hydraulic oil motor.

Cutting Wheel

The heavy cutting wheel is the foundation of an efficient workflow.

Feed Roller Spring

The heavy spring keeps the feed rollers in the optimal working position.

Large selection of other machines

Read more at www.fransgard.dk

Safety frame and emergency stop

The machine is equipped with 2 emergency stop buttons, located on each side, as well as a safety frame that automatically switches off the intake rollers if the frame is accidentally pressed against the hopper.

Meets the latest, strict safety requirements for wood chippers

Speed Monitor (No Stress System)

incl. hydraulic components for PC-2000-SEH.

Automatically adjusts the amount of wood passing through the machine to prevent overloading.

Technical data:

Technical data	PC-2000-SEH
Max. tree diameter	Ø20 cm / Ø8in
PTO speed	540 / 1,000 rpm
Power requirement (540 rpm)	Max. 45 kW / 61 HP
Power requirement (1,000 rpm)	Max. 85 kW / 115 HP
Spline on main shaft	1 3/4" x Z6
Weight	950 kg / 2094lb
Mounting	3-point tractor mount
Hydraulics	From tractor
Number of feed rollers	2
Feed roller torque	Up to 1,096 Nm
Capacity *	20m ³ per hour / 24yd ³ per hour
Crane mounting option	No
Speed monitor	Yes, standard

*Capacity depends on knife settings, available horsepower, wood condition, and rotor speed.

Made in Denmark

A strong combination of our own modern production facilities and excellent craftsmanship ensures that our products meet the high demands of customers for durable and robust machines.

With all our production on-site, we maintain a constant overview of every single order so that the customers receive the right article on time.

It's Danish efficiency and quality at its best.
