NPDES MS4 Annual Report

version 1.11

(Submission #: HQF-0YBW-TE2K4, version 1)

Details

Originally Started By Cameron Wade Smith
Submitted 9/15/2025 (1 days ago) by Don L Weiss
Submission ID HQF-0YBW-TE2K4
MS4 Owner Name City of Dickson
Status Complete

Form Input

General Information

Permit Number
TNS077542

MS4 Owner/Operator (e.g. City of ...)
City of Dickson

County
Dickson

Reporting Period

Per subpart 5.1
a. The Annual Report shall cover the period beginning on July 1st and ending on June 30th;
b. The Annual Report shall be due on September 30th after the end of the reporting period.

Reporting Period Start Date
07/01/2024

Reporting Period End Date
06/30/2025

MS4 Population At NOI Submittal
10,001 = Population = 25,000

Name and contact information of MS4 Responsible Authority (e.g. Mayor ...)

MCM 1: Public Education

Below report on the educational activities completed during the reporting year. Delete unused rows (click X at end of row). Add rows (add row button on bottom of table) to report add activities.

Provide the number of activities completed during the reporting year for the Public (Subpart 4.2.1.1. of the permit).

2

Provide the number of activities completed during the reporting year for the Engineering and Development Community (Subpart 4.2.1.2. of the permit).

2

For new employees: provide the total number of employees NOT educated in accordance with the PIE plan within 6 months?

0

For existing employees: provide the total number of employees NOT educated in accordance with the PIE plan within the permit term.

0

A population of 10,001 = Population = 25,000 at NOI submittal was selected in the General Information Section. Per Subpart 4.2.1.1. the MS4 is required to conduct one (1) activity during the reporting year addressing each of the four (4) management measures for the public. A single activity may address multiple management measures.

You may need to use the scroll bars to view the whole table.

To Add a Row - Click Add Row near the bottom right of the table

To Delete a Row - Click the "X" at the far right end of the row.

Column Descriptions

- Target Audience (This column is fixed and cannot be changed.)
- Activity Description: (Provide details as to the specific activity that was conducted.)
- Management Measure: Impacts on Water Quality (Select Yes if the activity listed in this row addressed the 4.2.1.1.a.General awareness of the impacts on water quality.)
- Management Measure: SCM/BMP Maintenance (Select Yes if the activity listed in this row addressed the 4.2.1.1.b. Awareness of the importance of maintenance activities for operators of permanent Best Management Practices (BMPs)/Stormwater Control Measures (SCMs).)
- Management Measure: Storage, Use, Disposal of Fluids (Select Yes if the activity listed in this row addressed the 4.2.1.1.c. Awareness of the proper storage, use, and disposal of pesticides, herbicides, fertilizers oil and other automotive-related fluids.)
- Management Measure: Illicit Discharges (Select Yes if the activity listed in this row addressed the 4.2.1.1.d. Awareness of identifying and reporting procedures for illicit connections/discharges, sanitary sewer seepage, spills, etc.)
- Date of Activity (Enter the date the activity took place. If the activity took place across multiple days enter the Date of the first day of the activity.)

Specifically Targeted Audience (This column is used to provide more details as to the audience the activity was targeting e.g. school age children, Homeowners with SCMs) A broad based event such as tabling at a festival may list general public as the specifically targeted audience.

of Audience (Enter the approximate number of individuals that were reached with this activity.)

Sponsored Activities (Identify if the event sponsored monetarily e.g. money or as a donation in kind e.g. goods or services by the MS4 program. If it was not a sponsored activity, leave N/A in the cell.)

Provide the status of your MS4 program's public education and outreach activities for the Public audience during the reporting period.

Target Audience	Activity Description	Management Measure: Impacts on Water Quality	Management Measure: SCM/BMP Maintenance	Management Measure: Storage, Use, Disposal of Fluids	Management Measure: Illicit Discharges	Date of Activity	Specifically Targeted Audience	# of Audience	Sponsored Activities
Public	Homecoming parade	Yes	Yes	No	Yes	11/04/2024	Public	100	N/A

A population of 10,001 = Population = 25,000 at NOI submittal was selected in the General Information Section. Per Subpart 4.2.1.2. the MS4 is required to conduct two (2) activities during the permit term addressing each of the two (2) management measures for the Engineering and Development Community. A single activity may address multiple management measures.

You may need to use the scroll bars to view the whole table.

To Add a Row - Click Add Row near the bottom right of the table

To Delete a Row - Click the "X" at the far right end of the row.

Column Descriptions

Target Audience (This column is fixed and cannot be changed.)

Activity Description: (Provide details as to the specific activity that was conducted.)

Management Measure: Long Term Water Quality Impacts (Select Yes if the activity listed in this row addressed the 4.2.1.2.a Awareness of the stormwater ordinances, regulations, and guidance materials related to long-term water quality impacts.)

Management Measure: Construction Water Quality Impacts (Select Yes if the activity listed in this row addressed the 4.2.1.2.b. Awareness of stormwater ordinances, regulations, and guidance materials related to construction phase water quality impacts.)

Date of Activity (Enter the date the activity took place. If the activity took place across multiple days enter the Date of the first day of the activity.)

Specifically Targeted Audience (This column is used to provide more details as to the audience the activity was targeting e.g. restaurants, Engineers, Developers) A broad based event such as tabling at a local trade show may list commercial and development community as the specifically targeted audience.

of Audience (Enter the approximate number of individuals that were reached with this activity.)

Provide the status of your MS4 program's public education and outreach activities for the Engineering and Development Community during the reporting period.

Target Audience	Activity Description	Management Measure: Long Term Water Quality Impacts	Management Measure: Construction Water Quality Impacts	Date of Activity	Specifically Targeted Audience	# of Audience
Engineering and Development Community	Summer lunch and learn	Yes	Yes	12/11/2024	City employees and development engineering community	35
Engineering and Development Community	Autoshop outreach	Yes	Yes	08/21/2024	Auto shop employees and owners	20

Comment

As part of our ongoing community engagement efforts, we participated in the recent Homecoming parade by setting up an outreach booth focused on stormwater awareness. At the booth, we distributed educational flyers designed to inform the public about stormwater management, its impact on the environment, and practical steps individuals can take to prevent pollution and protect local waterways.

Our materials emphasized simple, everyday actions such as properly disposing of waste, reducing the use of harmful chemicals, and maintaining clean yards and driveways that contribute to cleaner stormwater and a healthier community. The goal was to empower residents with the knowledge and tools they need to make a positive difference.

By engaging with parade attendees, we aimed to foster a better understanding of stormwater issues and encourage shared responsibility in keeping our community cleaner, safer, and more environmentally sustainable.

In addition to public outreach, we invited members of the engineering and development community, along with public works employees, to a Lunch and Learn session focused on Best Management Practices (BMPs) for erosion and sediment control. The event included a presentation and discussion centered around a detailed PowerPoint reviewing current BMPs, compliance expectations, and practical implementation strategies. The session served as both an educational opportunity and a platform for collaboration, reinforcing the importance of effective stormwater controls in construction and land development projects.

These outreach efforts reflect our commitment to educating both the public and professionals on how to better manage stormwater and protect our local waterways.

NONE PROVIDED

MCM 2: Public Involvement And Participation

Below report on the involvement/participation activities completed during the reporting year. Delete unused rows (click X at end of row). Add rows (add row button on bottom of table) to report add activities.

Is your Stormwater Management Program Plan documentation available online?

Yes

Provide the web address for the Stormwater Management Program plan documentation

<https://www.cityofdickson.com/stormwater>

Was the MS4 program documentation formally placed on public notice during the reporting year?

No

Prior to the Second annual report due date the MS4 is required to complete the formal public notice process for the entire Stormwater Management Program including response to comments. A copy of the public notice and response to comments shall be provided with the appropriate Annual Report reporting year. See subpart 4.2.2

Subpart 4.2.2. requires the following in the annual report

Detail applicable changes as directed in subpart 4.4.1

This requirement will be located in the Program Modifications Section

Is information for all construction site projects accessible to the public?

Yes

Number of comments received from the public on construction site projects.

1

Are all comments from the public on construction site projects considered?

Yes

Number of reports (or complaints) during the reporting period received from the public via public reporting system (IDDE reports)?

1

Provide the number of activities completed during the reporting year for the General Public (Subpart 4.2.2.1. of the permit).

1

Provide the number of activities completed during the reporting year for the Commercial and Development Community (Subpart 4.2.2.2. of the permit).

1

A population of 10,001 = Population = 25,000 at NOI submittal was selected in the General Information Section. Per Subpart 4.2.2.1. the MS4 is required to conduct one (1) activity during the reporting year addressing each of the four (4) management measures for the general public. A single activity may address multiple management measures.

You may need to use the scroll bars to view the whole table.

To Add a Row - Click Add Row near the bottom right of the table

To Delete a Row - Click the "X" at the far right end of the row.

Column Descriptions

- Target Audience (This column is fixed and cannot be changed.)
- Activity Description: (Provide details as to the specific activity that was conducted.)
- Management Measure: Pollution Prevention (Select Yes if the activity listed in this row addressed the 4.2.2.1.a Pollution Prevention Management Measure.)
- Management Measure: Impacts on Water Quality (Select Yes if the activity listed in this row addressed the 4.2.2.1.b. Impacts on water quality or local stormwater management issues.)
- Management Measure: Storage, Use, Disposal of Fluids (Select Yes if the activity listed in this row addressed the 4.2.2.1.c. Storage, use, and disposal of household hazardous waste, automotive related fluids, pesticides, herbicides, and fertilizers use.)
- Management Measure: Illicit Discharges (Select Yes if the activity listed in this row addressed the 4.2.2.1.d. Identifying and reporting procedures for illicit connections/discharges, sanitary sewer seepage, spills, etc.)
- Date of Activity (Enter the date the activity took place. If the activity took place across multiple days enter the Date of the first day of the activity.)
- Specifically Targeted Audience (This column is used to provide more details as to the audience the activity was targeting e.g. school age children, Homeowners with SCMs) A broad based event such as tabling at a festival may list general public as the specifically targeted audience.
- # of Audience (Enter the approximate number of individuals that were reached with this activity.)
- Sponsored Activities (Identify if the event sponsored monetarily e.g. money or as a donation in kind e.g. goods or services by the MS4 program. If it was not a sponsored activity, leave N/A in the cell.)

Provide the status of your MS4 programs public involvement/participation activities for the General Public audiences during the reporting period.

Target Audience	Activity Description	Management Measure: Pollution Prevention	Management Measure: Impacts on Water Quality	Management Measure: Storage, Use, Disposal of Fluids	Management Measure: Illicit Discharges	Date of Activity	Specifically Targeted Audience	# of Audience	Sponsored Activities

Comment

Adopt-a-street: Multiple adopt-a-streets took place but documentation was misplaced during abrupt employee transitions. Documentation will be kept moving forward per manual.

Notes:

We have placed our MS4 documents out for public notice and review for September 2025. It will be documented in the next reporting period.

MCM 3: Illicit Discharge Detection & Elimination (IDDE)

Is the storm sewer map available through Spatial Rest Services?

No

Attach Most Recent Copy of Storm Sewer Map in accordance with subpart 4.2.3

[Figure 1 - City of Dickson MS4 Outfall Map_r2.pdf - 09/09/2025 12:02 PM](#)

[192766_Figure 1 - City of Dickson Storm Sewer System Map Final.pdf - 09/09/2025 12:02 PM](#)

Comment

NONE PROVIDED

The number of potential illicit discharges reported by the public.

2

The number of potential illicit discharges reported by internal personnel.

10

Total number of potential Illicit discharges reported (from any source) that are under investigation at the time of the annual report.

0

Were all potential illicit discharges investigated within 7 days of receipt?

Yes

Number of identified illicit discharges

12

Were all initial enforcement actions on confirmed illicit discharges taken within seven (7) calendar days of the investigation?

Yes

Number of corrective actions plans received for confirmed illicit discharges.

0

Were all corrective actions plans reviewed in accordance with established procedures?

Yes

Significant Contributor of Pollutants to the MS4

1.3.3.2. Non-stormwater Discharges

The permittee is authorized to discharge the following non-stormwater sources provided that the permittee has not determined these sources to be

significant contributors of pollutants to the MS4:

- Water line flushing
- Landscape irrigation
- Diverted stream flows
- Rising ground waters
- Uncontaminated groundwater infiltration (Infiltration is defined as water other than wastewater that enters a sewer system, including sewer service connections and foundation drains, from the ground through such means as defective pipes, pipe joints, connections, or manholes. Infiltration does not include, and is distinguished from, inflow.)
- Uncontaminated pumped groundwater
- Discharges from potable water sources
- Foundation drains
- Air conditioning condensate
- Irrigation water
- Springs
- Water from crawl space pumps
- Footing drains
- Lawn watering
- Individual residential car washing
- Flows from riparian habitats and wetlands
- Dechlorinated swimming pool discharges
- Street wash water
- Discharges or flows from firefighting activities

Subpart 8.1 Definitions

Significant Contributor is defined as a source of pollutants where the volume, concentration, or mass of a pollutant in a stormwater discharge can cause or threaten to cause pollution, contamination, or nuisance that adversely impact human health or the environment and cause or contribute to a violation of any applicable water quality standards for receiving water.

Total number of non-stormwater discharges or flows investigated.

0

MCM 4: Construction Site Stormwater Runoff Pollutant Control

For reporting construction activities in this section, count all activities e.g., projects, sites that were active during the reporting period. It is understood that activities will overlap multiple reporting years. For example: If a project plan is submitted and reviewed in reporting year 1, that plan review will go only on the report for that year. If that same project begins construction in reporting year 2, it would be included in the year 2 report for active construction activity, but not the year 1 report. If a construction activity is terminated in the beginning of a reporting year before the first inspection for that reporting year is required, that activity may be left off the count.

Identify if the regulatory mechanisms for construction site runoff control have been updated to be consistent with the CGP?

In Effect

Total number of active construction activities (or sites).

26

Number of new development and redevelopment projects reviewed in accordance with established policies and procedures.

26

Were all new development and redevelopment projects reviewed in accordance with the established policy and procedure?

Yes

Number of active non-priority construction activities.

3

Were all nonpriority active construction activities inspections conducted accordance with Stormwater Management Program.

Yes

Number of active priority construction activities.

23

The question below is asking for the number of non-priority construction activities that the MS4 **DOES NOT** have all of the required information for which indicates an issue with the MS4's tracking system.

Total number of active non-priority construction activities with incomplete inventory information.

0

Did all Priority Construction Activities have Pre-Construction meetings?

Yes

Were all priority Construction Activities inspected at least once per calendar month?

Yes

MCM 5: Post Construction/ Permanent Stormwater Management

Has an offsite mitigation program or payment in lieu into a public stormwater fund been developed as outlined in subpart 4.2.5.3.?

No

Did all of the projects approved meet the buffer requirements of subpart 4.2.5.4?

Yes

Does the Stormwater Management Program implement alternative buffer widths?

No

The 2009 scorecard can be found on TDEC's website.

[Water Quality Scorecard](#)

Scorecard

NONE PROVIDED

Comment

NONE PROVIDED

Number of all new development and redevelopment projects reviewed.

15

Number of new development and redevelopment projects reviewed in accordance with the established policy and procedure.

15

Number of sites verified that 100% of SCMs are installed per design specifications in accordance with approved plan.

2

Were all SCMs verified to be installed per design specifications in accordance with approved plan within 90 days of installation?

Yes

Does the permittee have adequate legal authority as required by 4.2.5.7 for all SCMs installed?

Yes

Number of SCMs that have not been properly operated or maintained.

0

Number of public requests for SCM inventory.

0

Are all SCMs in the inventory tracking system?

No

Do all SCMs in the inventory tracking system have complete information?

No

SCM inventory tracking system information

[City of Dickson SCM Inventory.xlsx - 09/12/2025 09:51 AM](#)

Comment

NONE PROVIDED

MCM 6: Pollution Prevention/Good Housekeeping For Municipal Operations

Number of applicable Municipal Operations and Facilities under subpart 4.2.6.2.

4

Do all applicable Municipal Operations and Facilities have a O&M Facility Plan?

Yes

Number Municipal Operations Facilities NOT inspected in accordance with the Stormwater Management Program in the previous 12 months.

0

Stormwater Management Program Modification

Have any municipal facilities covered under this permit been added during the reporting term?

No

In the table below identify if any changes were made to your Stormwater Management Program during the reporting period.

For minor modifications that add, but neither subtract nor replace, components, controls, or requirements to the Stormwater Management Program provide a description of that modification. - See Subpart 4.4.1.1.a

For minor modifications that replace an ineffective or infeasible BMP, or SCM which is specifically identified in the Stormwater Management Program provide a description of the analysis of why the former BMP was ineffective or infeasible; Expectations on the effectiveness of the replacement BMP or SCM; and an analysis, if applicable, of why the replacement BMP or SCM will ensure the optimization of equipment use. a description of that modification. - See Subpart 4.4.1.1.e

For major modifications that subtract BMPs, SCMs, components, controls, or requirements of the Stormwater Management Program provide a description of the analysis of why the component was ineffective or infeasible; and detailed explanation of why, with the elimination of this component, the Stormwater Management Program will continue to achieve a reduction in pollutants to the MEP and shall not cause or contribute to violations of State water quality standards in the receiving stream. - See Subpart 4.4.1.2.a.

Where any changes were made to the program elements during the reporting period?

Civil Penalties	0	3	0	3
Additional Measures	0	0	0	0
				Sum: 92

Results Of Information Collected And Analyzed (Monitoring)

Was monitoring for the reporting year performed in accordance with either 4.6.1.1.1 (Option 1) or 4.6.1.1.2 (Option 2)?

Yes

Provide a summary describing the results of information collected and analyzed, including monitoring data (analytical and non-analytical), if any, during the reporting period. If no monitoring was completed, explain.
See reports attached.

Electronic Data Deliverable (EDD) Sheets (Field Stream Survey and Habitat Sheets, Macroinvertebrate Taxa Report, and the TDEC E. coli and Field Water Parameter Report) are in the section labelled Water Quality Assessment Publications as excel files.

For your convenience, links to the required standard templates for reporting the results of your monitoring data are provided below.

If you have any questions about EDD sheets please contact tdec.watershedplanning@tn.gov.

Stormwater Management Program Evaluation

Stormwater Management Program Evaluation

In accordance with subpart 4.6.2. The permittee shall conduct an annual evaluation of the Stormwater Management Program to evaluate compliance with the terms and conditions of the permit, including the effectiveness of the BMPs, components, or controls of its stormwater management program, and the status of achieving the measurable requirements in the permit.

Summarize the results of the permittee's annual evaluation of the current Stormwater Management Program.

City of Dickson ♦ MS4 Program

Program Assessment Summary

Fiscal Year 2024 ♦ 2025 ♦ September 12, 2025

The City of Dickson held its annual MS4 Program Assessment meeting on September 12, 2025. Attendees included Bret Stock (City Engineer/Director of Public Works), Cooper Morris (Assistant Director of Public Works), and Cameron Smith (New Stormwater Coordinator). The meeting reviewed program performance for FY 2024 ♦ 2025, compliance with permit requirements, and opportunities for improvement.

Key Discussion Points & Findings:

Illicit Discharge Detection & Elimination (IDDE): Approximately 15 illicit discharge complaints were received in FY 2024 ♦ 2025, primarily involving sediment releases from construction activities. All complaints appear to have been addressed. Dry-weather screenings last fall revealed no discharges; screenings will continue in the upcoming reporting period.

Construction Site Oversight: Multiple complaints arose during the rainy season, mostly related to sediment trackout. Stop-work orders were issued at BBQ Road Subdivision, Northside Phase 3, and Breeze Crossing; NOVs were issued for BBQ Road, and Breeze Crossing was fined for violations. Monthly inspections at priority sites remain up to date.

Public Outreach & Participation: Social media posts, website updates, and flyers were distributed throughout the year. While education efforts continue, public participation remains a challenge. Goals include identifying a partner organization for a stream cleanup event and exploring new outreach methods.

Public Works Facility Inspections: Inspections were performed as required, with employees following SOPs. Minor issues (e.g., drip pan usage) were corrected immediately.

Storm Sewer Mapping & SCM Inventory: Outfall and storm sewer maps are current. The SCM inventory and contact lists have been updated in the Program Management Plan.

Program Improvements: Emphasis was placed on strengthening documentation of MS4 activities and complaints, and on the new coordinator exploring best practices from neighboring MS4 programs to improve public engagement. Stream sampling was completed in spring 2025.

Overall Assessment:

The City of Dickson ♦ MS4 Program continues to meet TDEC permit requirements with strong oversight of construction sites, ongoing public education, and effective facility inspections. Opportunities for growth include enhanced public engagement and proactive construction site monitoring during wet weather. The program ♦ updated staffing and documentation efforts position it for continued improvement in FY 2025 ♦ 2026.

Identify modifications or replacement of an ineffective activity/control measure/component/BMP.

The city stormwater coordinator has changed 3 times since the previous annual report, and the new coordinator (hired August of 2025) is evaluating the current policy and programs for potential updates and improvements. As always, we are looking for ways to better engage and reach the public and development community, and we hope to try some new ideas over the next year. If successful, these items will be included for future years to improve the current program.

Summarize the assessment results, and any modifications and improvements scheduled to be implemented in the next reporting period to improve the program or remedy deficiencies or weaknesses

The new coordinator is researching new outreach activities for the public, development, and engineering communities. Additionally, the new coordinator is working to improve the documentation of complaints, violations, and other items for a cleaner program. Routine site inspections will continue and will also become more frequent during the rainy periods of the year which is when the majority of our violations occur. We are looking to be more proactive on IDDE and Construction site issues to help prevent major items before they could happen.

Is MCM 1: Public Education and Outreach on Stormwater Impacts compliant with Permit Requirements?

Yes

Is MCM 2: Public Involvement/Participation compliant with Permit Requirements?

Yes

Is MCM 3: Illicit Discharge Detection and Elimination (IDDE) compliant with Permit Requirements?

Yes

Is MCM 4: Construction Site Stormwater Runoff Control compliant with Permit Requirements?

Yes

Is MCM 5: Post-Construction/Permanent Stormwater Management in New Development and Redevelopment compliant with Permit Requirements?

Yes

Is MCM 6: Pollution Prevention/Good Housekeeping compliant with Permit Requirements?

Yes

Is Monitoring Program (subpart 4.6.1.1) compliant with Permit Requirements?

Yes

The following questions are from subpart 5.2 Annual Report Requirements.

Is the permittee compliant with the permit terms and conditions?

Yes

This determination should be made as to the status of the program at the end of the reporting period and the requirements applicable at that date. For example, the permanent stormwater program changes are not required to be implemented until 24 months after the effective date of the permit. So if the MS4 has not yet implemented those changes at the first annual report, they would still be in compliance, if their program meets the previously established requirements.

Please Explain

NONE PROVIDED

Is the permittee relying on another governmental entity to satisfy some of the permit obligations?

No

Enter additional or clarifying information not elsewhere reported in this document.

NONE PROVIDED

Any other data specifically requested by the Division to substantiate statements and conclusions reached in the Annual Reports.

SUBMISSION AGREEMENTS

- ☒ I am the owner of the account used to perform the electronic submission and signature.
- ☒ I have the authority to submit the data on behalf of the facility I am representing.
- ☒ I agree that providing the account credentials to sign the submission document constitutes an electronic signature equivalent to my written signature.
- ☒ I have reviewed the electronic form being submitted in its entirety, and agree to the validity and accuracy of the information contained within it to the best of my knowledge.

This report must be signed by a ranking elected official or by a duly authorized representative of that person. See signatory requirements in sub-part 7.11.2 of the permit.

"I certify under penalty of law that I have personally examined and am familiar with the information submitted in the attached document; and based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."
