

Hot Rod Check-Up Lane

By the
MSRA (Manitoba Street Rod Association)

That bolt you finger-tightened and thought you'd come back to later may get forgotten altogether. That weld on your frame that appeared solid may have actually had a small crack. The list of things that can go wrong with your car is endless, and often items that work well need to be rechecked as you drive them.

Our classics are there for us to drive and enjoy safely on the road, and no one seeks to end up on the side of the road, or worse yet, risking the health of you and your family.

A Hot Rod Check Up is something you should have done regularly, the goal of the inspector is not to criticize but rather to ensure everything is in safe working order.

So please go through the MSRA's Hot Rod Check Up, there is no reporting to anyone, anything that is found to be in need of repair is only told to you for you to attend to when you get home or if it's severe enough get it repaired before you head home.

This is a free service performed by the members and volunteers of the MSRA

Saturday, August 2nd, 10:00 AM to 4:00 PM
