As a leader in the automotive aftermarket, Lokar continues to raise the bar by developing products that fit the ever-changing needs and demands of the customer. Offering parts and accessories that range from an extensive line of automatic transmission shifters, throttle cables and mounting brackets, pedal assemblies, and dipsticks, we have your project covered. With complete in-house design, engineering, prototyping, and manufacturing we have the ability to maintain a "hands-on" approach from start to finish ensuring our customers receive the highest quality products and service available.

LECARRA® *Steering Wheels*

Lecarra steering wheels are designed to give you the utmost in comfort, performance, and satisfaction for the ultimate driving experience. With our wide selection of steering wheel designs, from classic, to nostalgic, to modern, there are endless possibilities to fit your personal taste. In addition to our steering wheels, we offer a variety of horn buttons and hub adapters for a custom fit to virtually any vehicle.

With a heritage that dates back to the early 60's, Covico is a brand that is synonymous with the origins of the southern California hot rod and hot boat culture. Manufactured in America from heavy duty stainless steel and equipped with a unique rubber grip, Covico wheels are renowned for their straight-forward no-nonsense classic looks, superior strength and durability. Often imitated but never replicated, Covico is the industry's original performance steering wheel brand and continues it's popularity today under the Lokar umbrella of brands.

LS Classic *Series™*

The GM line of LS series engines are the next line of historic performance engines for the hot rodders and builders of today. LS Classic Series specializes in these popular LS engines and offers a variety of products that add a vintage look with modern technology. Turn to the LS Classic Series section to find out more about our quality products and how they can help you make your next project a success.

With a unique style that forged a new space in the automotive aftermarket, Clayton Machine Works products can be found on cars built by everyone from world premier builders to home garage builders and everyone in between. Fueled by a desire to create products that are a step above, each part is passionately designed implementing modern design elements and finishes with endless attention to detail. A function and style that blends with any vehicle from traditional hot rods to muscle cars, trucks and more.

For over 35 years Made4You has manufactured the highest quality injection molded nylon tubing and line clamps, plug wire separators, cable management solutions / accessories and much more. Made4You products are designed and built in the USA. They will not fade, distort, stain, or discolor and they are impervious to automotive fluids. Most items are available in 6 or more different colors, so you are sure to find a solution that is a perfect match for your application.

STEERING WHEELS

CONFIGURE YOUR LECARRA STEERING WHEEL PART NUMBER

For a complete leather wrapped steering wheel part number, the two digit leather color code must be added to the steering wheel style part number. The example part number below is for a Standard Grip Mark 4 GT Steering Wheel with a Polished Center and a Burgundy Leather Wrap.

$$\text{Your Part Number} = \underbrace{422}_{\text{Steering Wheel Style}} \underbrace{03}_{\text{Leather Color Code}}$$

LEATHER

Lecarra offers several standard leather wrap color options as shown in the chart below. We can also wrap a new steering wheel for you with your custom leather for the perfect match to your interior. For custom wrap applications, a 55" x 8" piece of material is required and a special handling fee will apply. We cannot wrap steering wheels with customer supplied vinyl or imitation leather.

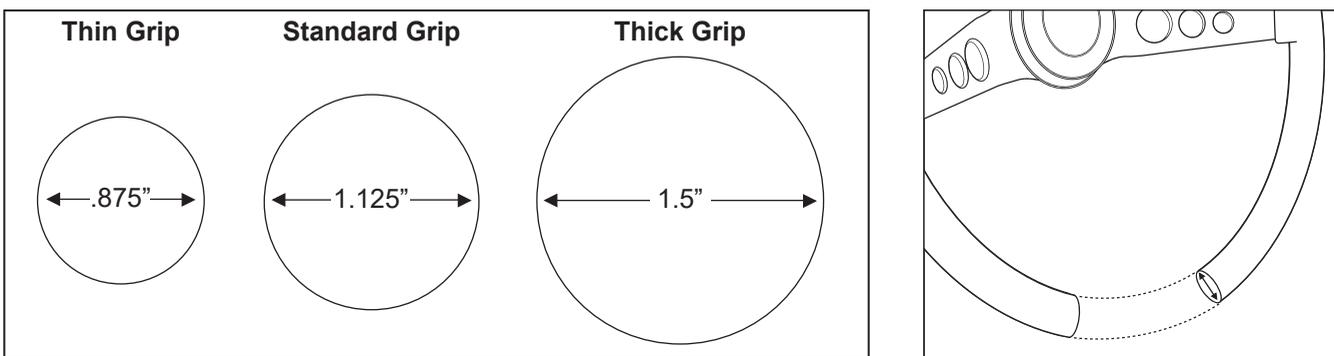

CENTER COLORS

Use the key below to determine the finish of your steering wheel style part number.

GRIP DIMENSIONS

Note for airbag-equipped vehicles: Lecarra Steering Wheels and Hub Adapters are not designed to be used on vehicles equipped with airbags. For safety and liability reasons, Lecarra DOES NOT recommend removing, disabling, or modifying the airbag in any vehicle.

Lecarra is committed to giving you the best quality products available. That's why our products are proudly made in the U.S.A.

LS CRATE ENGINE PACKAGES

We start with a brand new GM 495 horsepower LS3 right out of the crate. We then paint it Chevrolet orange or Ford blue (if you so desire) and begin assembling your desired LS Classic components until we have the perfect crate engine for your project. Once completely assembled, we put the engine on our in-house run stand, load your Holley EFI ECU with our start-up tune and run your engine to check for leaks and oil pressure. Once we are satisfied and we have ensured your engine will operate with no issues, we put it back into the original GM crate and ship it directly to you or your builder. Once you receive your engine it's as simple as installing it, terminating a few power and ground wires on the harness and providing fuel pressure to the engine. We guarantee an easy start up!

Pricing varies depending on the engine's options, as these are completely custom packages tailored to your needs. Please call us or email us for a custom quote.

TRI-POWER STYLE CRATE ENGINE 3

- Perfect fit for your Corvette, Camaro or sixties muscle car
- 495 horsepower
- Available with Big Block Style Valve Covers in your choice of finish

OPTIONS	PART NUMBER
Engine block painted orange, cast finish Big Block Chevy Style Valve Covers	GMLS9025

3 This product is not legal for street use on an emissions-controlled vehicle. It may be used on dedicated competition or pre-pollution-controlled vehicles only.

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have a legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-certification means 1965 and older domestic vehicles in California, 1968 imports in California and both domestic and imports under EPA jurisdiction.

'57 FUELIE STYLE CRATE ENGINE 

- Replicates the look of the legendary '57 Chevy Fuelie

HOT ROD STYLE CRATE ENGINE

Go more retro with our period perfect "Hot Rod" crate engine. Designed for earlier styled hot rods and customs, this crate engine features finned aluminum valve covers, dual throttle bodies, and an oval air cleaner. With 495 HP, you'll get all of the performance you need and still have the drivability and reliability of a modern-day LS engine.

Please inquire regarding part numbers, options, and pricing.

Engine pictured shows Accessory Drive Kit, Water Pump, and Balancer.

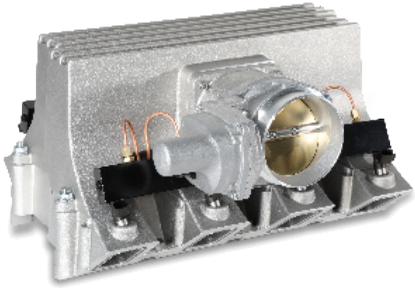

FORD FE STYLE CRATE ENGINE

Our Ford FE Style Crate Engine has the perfect old-school look to accent your classic Ford truck or car. It features "Powered By Ford" script Valve Covers in your choice of finish. With 495 horsepower, this Crate Engine will greatly improve the performance and reliability of your classic ride.

Please inquire regarding part numbers, options, and pricing.

! { Throttle bodies and fuel injectors not included with Fuelie Intake Kits.

These systems utilize GM LS3 OEM fuel injectors and GM four bolt, 92mm, drive-by-wire throttle body (not included) and are compatible with GM and aftermarket ECU's and harnesses that support both drive-by-wire and speed density tuning. Manifold kits are available to work with your choice of rectangular or cathedral port LS cylinder heads.

14" CLASSIC INTAKE KIT 3

- Kits include a single plane aluminum intake manifold
- Billet aluminum fuel rails & 14" chrome round air cleaner
- Includes 4150 carb adapter plate, throttle body to air cleaner clamp assembly, all mounting hardware, and paper filter element

The systems utilize GM LS3 OEM fuel injectors and GM four bolt, 92mm, drive-by-wire throttle body (not included) and are compatible with GM and aftermarket ECU's and harnesses that support both drive-by-wire and speed density tuning. Manifolds are available to work with rectangular and cathedral port LS cylinder heads.

CATHEDRAL PORT TO LS3 INTAKE ADAPTER PLATES 3

- Billet aluminum adapter plates
- Used to bolt a late model, LS3 rectangular port intake manifold to Cathedral cylinder heads (i.e. LS1/LS6)
- Includes high-temp long life O-rings

NOTE: *These adapter plates are included in LS Classic Fuelie intake kits that are specified for Cathedral port heads.*

LS AIR CLEANER KITS

Kits include everything needed to install GM LS, four bolt, 92mm throttle bodies onto manifolds that have a standard 4150 carburetor bolt pattern.

14" CLASSIC AIR CLEANER KIT 3

- Kit includes a high quality, cast aluminum air cleaner base, chrome air cleaner top, 4150 carb adapter plate, throttle body to air cleaner clamp assembly, mounting fasteners, and white paper air cleaner
- Air cleaner assembly is 4-1/4" tall

Dual-plane intakes will require machining to accept throttle body.

PART NUMBER
GMLS3007

TRI-POWER STYLE AIR CLEANER KIT 3

- Compatible with dual-carb manifolds that have standard 4150 carburetor bolt patterns and 8-5/8" carb spacing
- Kit includes a high quality, cast aluminum air cleaner base, chrome air cleaner top with Turbo-Jet decals, 4150 carb adapter plates, throttle body to air cleaner clamp assemblies, mounting fasteners, and cotton gauze air cleaner
- Air cleaner assembly is 2-1/2" tall

Dual-plane intakes will require machining to accept throttle body.

CLASSIC FUELIE STYLE AIR CLEANER KIT 3

Loosely based on the 1963-65 Corvette Fuelie, this intake comes in kit form and some modifications may be required. The kits can be assembled with the included hardware, or welded.

Each kit comes with:

- (1) 4" 90 degree mandrel bent tubing
- (1) 4" 45 degree tubing
- Air cleaner assembly is 4-3/4" tall
- 4" rubber bellows that allows independent engine movement
- K&N cone type filter
- Air cleaner assembly (housing and lid)

PART NUMBER
GMLS3033

'57 CHEVY STYLE AIR CLEANER ASSEMBLY 3

- Reproduction air cleaner
- Includes adapter to fit on an LS3 throttle body
- Works seamlessly with our '57 Fuelie intake to top off any Tri-5 engine swap
- Kit includes a paper filter element and mounting fasteners

Will also work with stock OEM GM 1957 Chevy Fuelie intake manifolds.

PART NUMBER
GMLS3009

FORD 289 STYLE AIR CLEANER KIT 3

SIMULATED DISTRIBUTOR AND PLUG WIRE SETS

- Available in General Motors or Ford style
- High quality 7mm Kevlar spiral core spark plug wires
- Wires are 9' long with 40 ohms of resistance per foot
- High-temp silicone pre-installed 90 degree coil boots
- Straight unterminated spark plug boots and terminals (**plug wire crimpers are needed to complete the installation**)
- 90 degree distributor boots
- Includes distributor housing, cap, and mounting hardware

NOTE: Check firewall clearance to ensure fit. Distributor is designed to bolt to the front or rear two bolts of LS Classic Valley Plates (they will NOT clear valley plates with raised ribs or oil pressure sender boss).

LS VALLEY PLATES

LS Classic Series Gen III Oil Fill Valley plates combine the classic look and function of an OEM style chrome oil fill tube and breather cap into a modern LS engine.

GEN III OIL FILL VALLEY PLATE 3

- OEM style chrome oil fill tube and breather cap
- Precision CNC-machined from 1/4" billet aluminum
- Plates replace the stock cast aluminum 10 bolt valley pans on Gen III LS engines
- Available with a machined finish or a semi-gloss black powder coat finish
- Includes stainless steel fasteners and O-ring seal

Valley plates are offered with the oil fill tube slanting towards the driver or passenger sides of the engine. Oil fill valley plates utilize the oil fill breather cap for ventilation.

SIDE / FINISH	PART NUMBER
Driver Side Machined	GMLS2005M
Driver Side Black	GMLS2005B
Passenger Side Machined	GMLS2001M
Passenger Side Black	GMLS2001B

GEN IV OIL FILL VALLEY PLATE 3

- OEM style chrome oil fill tube and breather cap
- Precision CNC-machined from 3/8" billet aluminum
- Plates replace the stock cast aluminum 11 bolt valley pans on late model Gen IV LS engines
- Available with a machined finish or a semi-gloss black powder coat finish
- Includes all necessary O-rings, seals, and stainless steel fasteners

Integral O-ring bosses on the bottom side of the valley plate blocks off the Displacement on Demand passages (No other DOD delete kit is necessary). Installation requires relocation of the oil pressure sender (a remote mount is included). The valley plates are offered with the oil fill tube slanting towards the driver or passenger sides of the engine. Oil fill valley plates utilize the oil fill breather cap for ventilation.

SIDE / FINISH	PART NUMBER
Driver Side Machined	GMLS2006M
Driver Side Black	GMLS2006B
Passenger Side Machined	GMLS2002M
Passenger Side Black	GMLS2002B

BREATHER VALLEY PLATES 3

- High efficiency breather assembly and port
- Precision CNC-machined from billet aluminum
- Plates replace the stock cast aluminum 10 bolt (Gen III) and 11 bolt (Gen IV) valley pans on LS engines
- Available with a machined finish or a semi-gloss black powder coat finish
- Includes all necessary stainless steel fasteners, O-rings and seals

The Gen IV valley plates include integral O-ring bosses on the bottom side that blocks off the Displacement on Demand passages (No other DOD delete kit is necessary). Breather valley plates have NO provision for oil filling. Requires relocation of the oil pressure sender (a remote mount is included).

SIDE / FINISH	PART NUMBER
Gen III Machined	GMLS2003M
Gen III Black	GMLS2003B
Gen IV Machined	GMLS2004M
Gen IV Black	GMLS2004B

LS VALVE COVERS

- The perfect fit for your retro LS package
- Covers accept the OEM rubber seals (not included) and bolt directly to the cylinder head
- With no adapter required there is less chance of leakage
- The casting is designed to be thick enough for drilling and tapping for fittings

SMALL BLOCK CHEVY STYLE 3

- Cast Aluminum and finned
- All mounting hardware is included
- LS Classic script is removable, can be replaced with your custom logo
- Ported PCV fitting/vacuum port and oil splash baffle in one cover
- 1-5/8" tall

These Valve Covers have NO provision for filling oil and should be used in conjunction with one of our Valley Plates with the oil fill tube.

PART NUMBER
GMLS1002

BIG BLOCK CHEVY STYLE 3

- Billet aluminum filler cap on one cover
- All necessary mounting hardware is included, as well as factory-look load spreaders
- Ported PCV fitting/vacuum port and oil splash baffle in one cover
- Vintage Chevrolet Tonawanda factory stickers included
- 2" tall

CLAYTON MACHINE WORKS LS VALVE COVERS 3

- Machined from billet aluminum
- Removable panel that can be painted and customized to your specific design
- Includes “carbon fiber look” inserts
- Uses OEM O-ring gaskets
- Threaded oil cap included
- Available in raw and polished finish
- Breather configuration is user supplied

FINISH	PART NUMBER
Machined	LSV-01
Polished	LSV-01-P

CLAYTON MACHINE WORKS LS COIL COVERS

- Elegantly hides LS coil packs
- Machined aluminum
- Black powder coated, polished, or mill finish with machined highlights
- Fits GM LS engines utilizing existing coil bracket mounting points
- Designed to fit LS crate motors and will not clear factory high mount alternators (such as those found on Corvettes) unless a cutout is fabricated or aftermarket alternator and brackets are used
- Best suited for aftermarket serpentine pulley systems
- Can also be used with relocated coil packs for lower profile appearance
- Dimensions: 19.5" X 5"

SPIN-N-SNAP

This unique design allows a quick and easy method of routing any type of wires or cables anywhere. For 7-8mm wire. Just spin the inner ring to align with opening, place the wire inside, then spin to next opening. When all desired wires are in the unit, spin to 'closed' position. Now your wires are secured! No hardware required.

T-CLAMP® KITS

All of our clamp kits contain #10-32 stainless steel mounting hardware for a professional finish. A durable plastic storage case is provided for easy access and organization.

ALL PLUMB KIT

Contains everything you need to achieve a professional chassis and under hood look. Will complete one car, clamping every 18". This complete selection of T-Clamps makes it easy to mount and route fuel, brake and transmission lines, electrical wiring, battery cables, vacuum lines and hoses.

PART NUMBER
30-899-__

Single Place T-Clamps:

WHEEL BOLT CIRCLE TEMPLATE

Quickly check the lug bolt pattern for almost any wheel. A must when fitting custom wheels. Saves you time and money. Made of tough ABS to ensure accuracy for years. Easy to read numbers.

BOLT CIRCLE

PART NUMBER	DESCRIPTION
80-21392	Red - 5 lug SAE: 4-1/2", 4-3/4", 5", and 5-1/2"
80-21492	Blue - 4 lug Metric: 98mm, 100mm, 4-1/4", 4-1/2"
80-21592	Yellow - 5 lug Metric: 100mm, 112mm, 115mm, 120mm
80-21692	Gray - 6 lug SAE for trucks: 127mm, 5-1/2", 6-1/2"
80-21200	Complete kit! Has one each of all the above.

HOSE & TUBE GAUGE

No more second-guessing which size clamp to purchase! Easily and accurately measure the outside diameter of all your tubing, hose, and wire so you can pick the right T-Clamp for a perfect fit every time. Molded from tough ABS, this hose and tube gauge should be in every toolbox.

TUBE GAUGE

TOOL MAID

Have you ever wondered which wire went where? Which cylinder was running lean or rich? Dropped a nut down the carburetor? Forgot where you laid that tool you just had? If you answer "yes" to any of these questions, you need the patented Tool Maid® engine tool tray. This handy, lightweight 12" x 14" tray mounts directly on 4-barrel carburetors using the stock stud and nut. Large, angled compartments keep tools and small parts within easy reach. The side panels conveniently hold plugs and wires out of the way and keeps them in order. Tray is constructed of gas and oil resistant polypropylene.

SHIFTERS & TRANSMISSION ACCESSORIES

AUTOMATIC TRANSMISSION SHIFTERS

For over three decades, automotive enthusiasts have experienced and enjoyed the superior craftsmanship, design, and safety features of Our Automatic Transmission Shifters. When Lokar builds a Shifter, whether it's for a hot rod, street rod, truck, muscle car, or off-road vehicle, safety is the first and foremost consideration.

The Lokar Collection of Shifters is designed to prevent accidental shifting into Reverse from Park or Neutral with our exclusive Safety Lock-Out Button. When in Park, the Safety Lock-Out Button is flush with the knob. Lokar also offers Shifter Knob Adapters for individuals who wish to personalize their Shifter with a knob that does not have a button (See page 53).

AUTOMATIC TRANSMISSION SHIFTER FEATURES

- Positive Lock-Out in Park And Neutral
- Neutral Safety Switch
- Lever adjustments for dash and seat clearance
- 360 degree lever rotation for extra leg space
- Available for most GM, Ford and Chrysler automatic transmissions
- Levers available in chrome-plated or black powder coat finish
- Levers available in many lengths and styles (see page 47 for options)
- Choice of many knob styles (see page 48)
- Slotted bracket allows for fine adjustment of shifter angle

All Automatic Transmission Shifters feature our exclusive Safety Lock-Out Button to prevent accidental shifting.

U.S. Patent No. 11,181,189

Neutral Safety Switch

CONFIGURE YOUR SHIFTER PART NUMBER

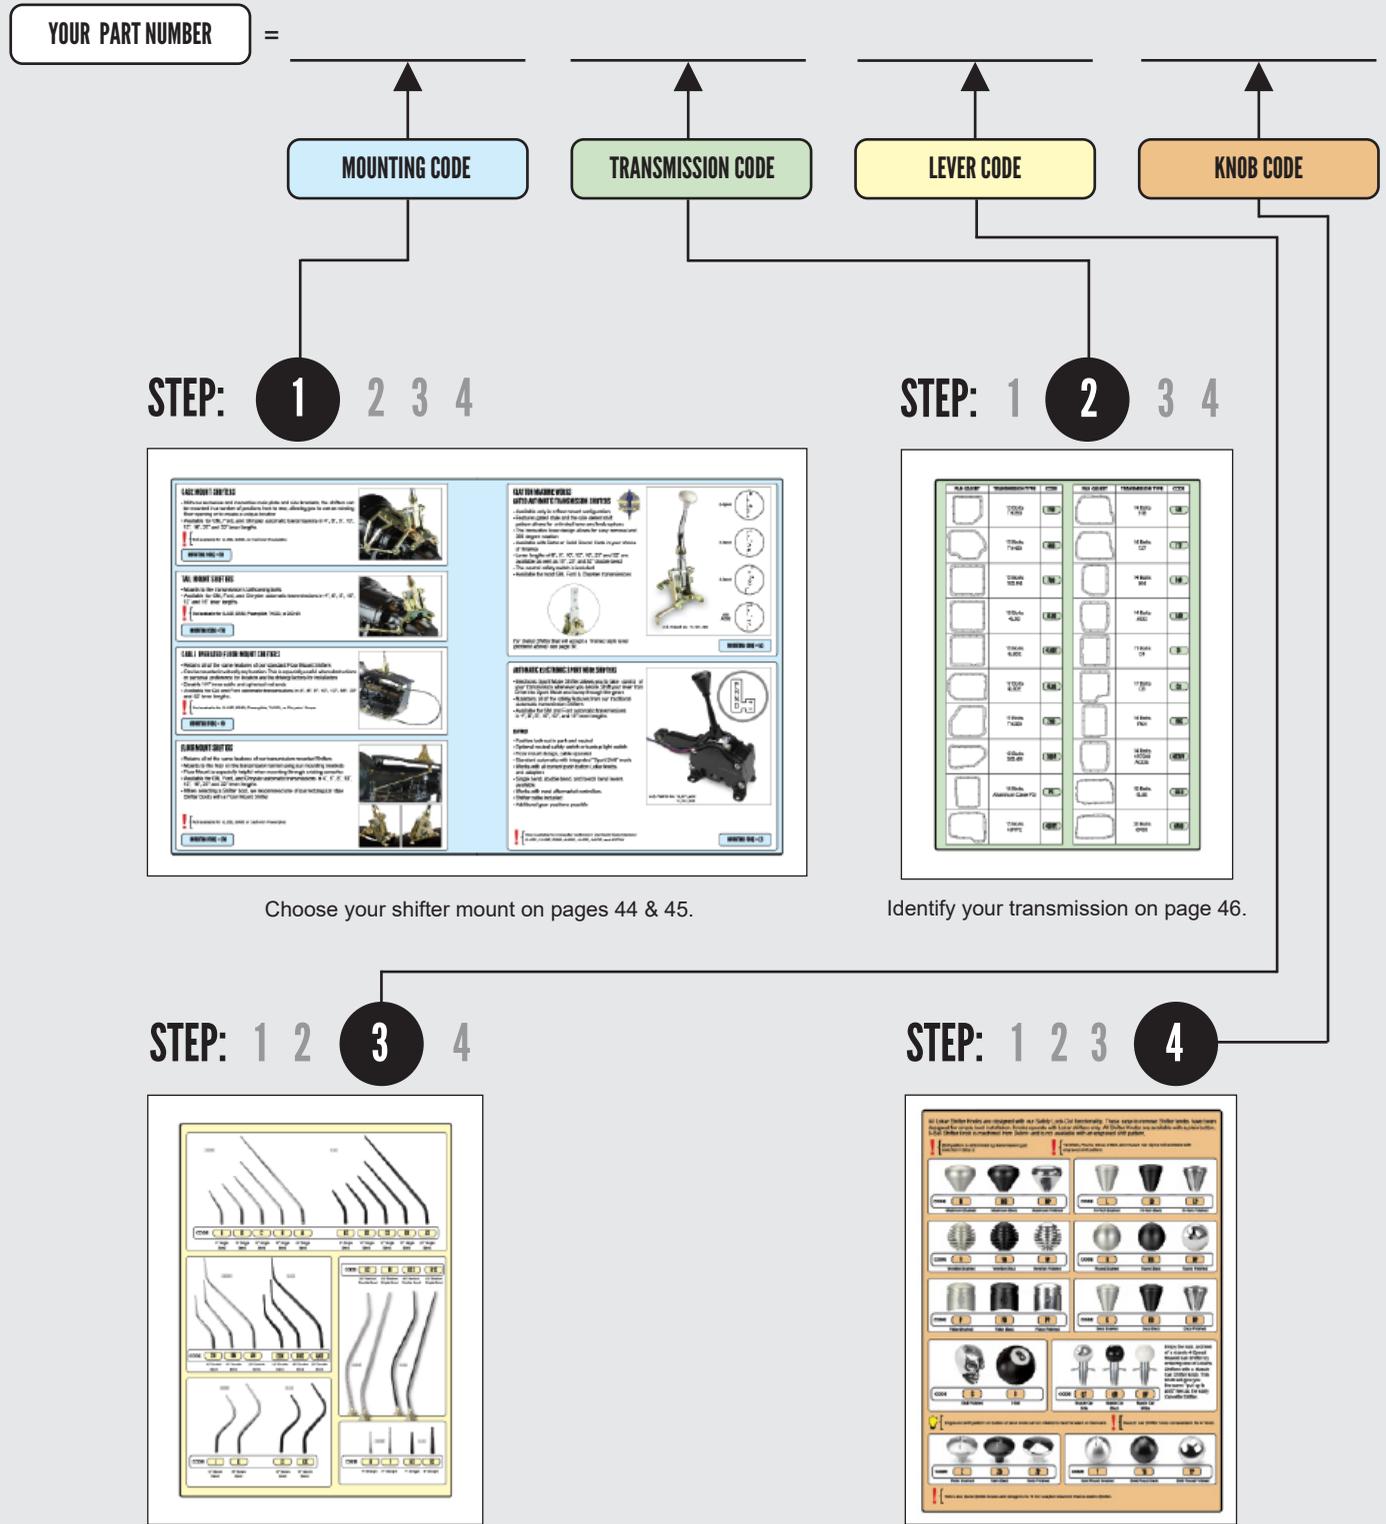

Lokar's precision engineered Shifters are available in an almost unlimited number of combinations, ensuring that you can make your build as unique as you want. Because of the nearly endless possible combinations, you will need to construct your unique alphanumeric Shifter part number using the guide on the following pages. If you would prefer assistance please phone or email our Tech Department at 877.469.7440 or tech@lokar.com.

YOUR PART NUMBER: **FM 350 C D**

MOUNTING STYLE CODE
TRANSMISSION TYPE CODE
LEVER CODE
KNOB CODE

This example part number is for a floor mounted 350 Turbo-Hydramatic transmission with a chrome 12 inch single bend lever and a brushed deco knob.

Your part number will always begin with a CM, CO, TM, FM, or ES.

CASE MOUNT SHIFTERS

- With our exclusive and innovative main plate and side brackets, the shifters can be mounted in a number of positions front to rear, allowing you to use an existing floor opening or to create a unique location
- Available for GM, Ford, and Chrysler automatic transmissions in 4", 6", 8", 10", 12", 16", 23" and 32" lever lengths

! { Not available for 6L80E, 6R80, or cast-iron Powerglide

MOUNTING CODE = CM

TAIL MOUNT SHIFTERS

- Mounts to the transmission's tailhousing bolts
- Available for GM, Ford, and Chrysler automatic transmissions in 4", 6", 8", 10", 12" and 16" lever lengths

! { Not available for 6L80E, 6R80, Powerglide, TH200, or 200-4R

MOUNTING CODE = TM

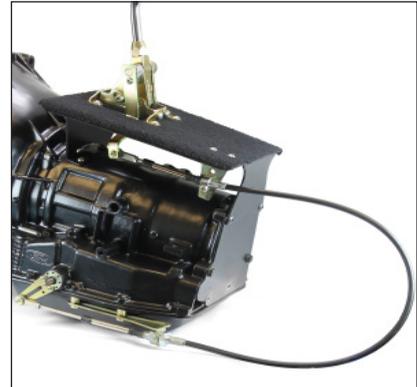

CABLE OPERATED FLOOR MOUNT SHIFTERS

- Retains all of the same features of our standard Floor Mount Shifters
- Can be mounted in virtually any location. This is especially useful when obstructions or personal preference for location are the driving factors for installation
- Durable 1/4" inner cable and spherical rod ends
- Available for GM and Ford automatic transmissions in 4", 6", 8", 10", 12", 16", 23" and 32" lever lengths.

! { Not available for 6L80E, 6R80, Powerglide, TH200, or Chrysler / Mopar

MOUNTING CODE = CO

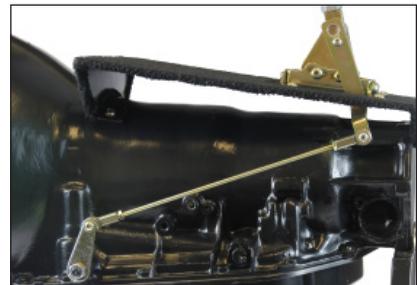

FLOOR MOUNT SHIFTERS

- Retains all of the same features of our transmission mounted Shifters
- Mounts to the floor on the transmission tunnel using our mounting brackets
- Floor Mount is especially helpful when mounting through existing consoles
- Available for GM, Ford, and Chrysler automatic transmissions in 4", 6", 8", 10", 12", 16", 23" and 32" lever lengths
- When selecting a Shifter boot, we recommend one of our rectangular style Shifter Boots with a Floor Mount Shifter

! { Not available for 6L80E, 6R80 or cast-iron Powerglide

MOUNTING CODE = FM

CHOOSE YOUR SHIFTER MOUNT

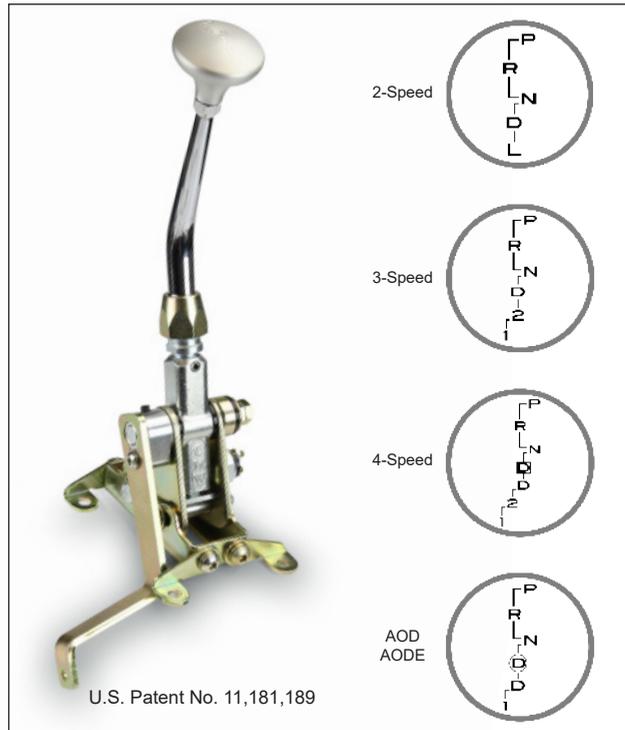

CLAYTON MACHINE WORKS GATED AUTOMATIC TRANSMISSION SHIFTERS

- Available only in a floor mount configuration
- Features gated style and the side detent shift pattern allows for unlimited lever and knob options
- The innovative lever design allows for easy removal and 360 degree rotation
- Available with Retro or Solid Round Knob in your choice of finishes
- Lever lengths of 6", 8", 10", 12", 16", 23" and 32" are available as well as 16", 23" and 32" double bend
- The neutral safety switch is included
- Available for most GM, Ford & Chrysler transmissions

For Gated Shifter that will accept a Tremec style lever (pictured above) see page 54.

2-Speed

3-Speed

4-Speed

AOD
AODE

MOUNTING CODE = GS

AUTOMATIC ELECTRONIC SPORT MODE SHIFTERS

- Electronic Sport Mode Shifter allows you to take control of your transmission whenever you desire. Shift your lever from Drive into Sport Mode and bump through the gears
- Maintains all of the safety features from our traditional automatic transmission Shifters
- Available for GM and Ford automatic transmissions in 4", 6", 8", 10", 12", and 16" lever lengths

FEATURES

- Positive lock-out in park and neutral
- Optional neutral safety switch or backup light switch
- Floor mount design, cable operated
- Standard automatic with integrated "Sport Shift" mode
- Works with all current push button Lokar knobs and adapters
- Single bend, double bend, and bench bend levers available
- Works with most aftermarket controllers
- Shifter cable included
- Additional gear positions possible

U.S. Patent No. 10,871,220
11,181,189

MOUNTING CODE = ES

Only available for computer controlled / electronic transmissions:
6L80E, 6L90E, 6R80, 4L80E, 4L60E, AODE, and 4R70W

COLUMN SHIFT LINKAGE

ADJUSTABLE COLUMN SHIFT LINKAGE

- Machined billet aluminum
- 3/4"-48 spline designed for 360° rotation allowing proper ratio adjustment between transmission and indicator on column
- Works with GM style factory or aftermarket columns
- Kit includes Selector Shaft Arm

Linkage rod is 21" in length (except for Truck applications).

APPLICATION	PART NUMBER
GM TH350, TH400, 700-R4, TH200, 200-4R, 4L60, 4L60E, 4L65E, 4L70E, 4L75E, 4L80E, and 4L85E	ACA-1800

SHIFTER BOOTS, BEZELS, & RING SETS

SHIFTER BOOT AND RING SETS

- Shifter Boots are made of black Naugahyde
- Includes boot, stainless or billet aluminum ring, and stainless screws
- Classic Shifter Boot is designed with a polished stainless bezel on top of the boot which fits over the shifter lever
- Classic Shifter Boot also includes a foam rubber seal to eliminate air flow from the floor through the boot
- All boots hug the shifter lever and there are no unsightly pull ties or laces

Matching handbrake boots can be found on page 76.

U-CUT-TO-FIT SPEEDOMETER CABLE KITS

- Teflon®-lined housing for extended life of the cable
- Inner cable and outer housing are "U-Cut-to-Fit"
- Complete with all necessary aluminum fittings
- Designed to fit into the transmission gear adapter (not supplied in GM or Chrysler Kit)
- All Lokar Speedometer Cables are 7' long
- Additional length cable is available

For all GM and Chrysler applications customer must have the trans end adapter and speedometer gear.

For Ford applications, the gear adapter is supplied in the Lokar Kit. Customer must supply the speedo gear and speedo gear retainer clip.

Gauges not included.

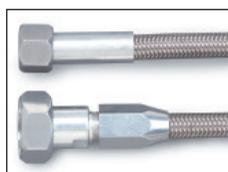

1948 & earlier Ford speedometers use 3/4"-20 female thread at the speedometer.

THROTTLE & KICKDOWN CABLE MOUNTING BRACKET & SPRING RETURN KIT FOR 4150 SERIES CARBURETORS

- 4 hole plenum style kit includes throttle cable and transmission kickdown cable provisions
- Works with our Throttle and Kickdown Cables
- Includes stainless steel return springs with adjustable tension
- Fits most drop base air cleaners
- Works with single or dual plane intake manifolds
- Intended for street applications

FINISH	PART NUMBER
Brushed	TCB-4150
Black	XTCB-4150

For race applications please see Page 135.

THROTTLE & KICKDOWN CABLE MOUNTING BRACKET FOR STREET DEMON™ CARBURETORS

- Recommended by Holley
- CNC machined from billet aluminum
- Provides easy installation of our Throttle and Kickdown Cables
- Features dual stainless steel return springs

DESCRIPTION	BRITE	BLACK

TRANSMISSION & ENGINE DIPSTICKS

TRANSMISSION DIPSTICKS

HI-TECH FLEXIBLE BRAIDED STAINLESS TRANSMISSION DIPSTICKS

- Teflon®-lined Flexible Braided Stainless
- Comes complete with braided stainless outer housing and heat resistant E-Z to Read flexible inner dipstick measuring cable
- Billet aluminum handle and billet aluminum fittings complement Lokar's Flexible Engine Dipsticks
- Includes dipstick funnel adapter to assist in filling
- The firewall mount dipstick measures 24" in length and is also available in 36" and 48" lengths
- Transmount mounts to the bell housing and the length varies according to the transmission application
- C4 Pan is screw in style

Order additional or replacement Funnel Adapter using Part #ATA-6900

Call for information on custom lengths and applications.

Firewall mount can be mounted anywhere you desire under the hood such as the firewall or inner fender apron, etc.

E-Z to Read Inner Cable

Included Funnel Adapter assists in filling transmission

Firewall Mount can be mounted anywhere you desire under the hood such as the firewall or inner fender apron, etc. Firewall Mount Dipsticks are at least 28" from the entry point on the transmission to the firewall mounting bracket.

ENGINE DIPSTICKS

FLEXIBLE ENGINE DIPSTICKS

- Styling complements our Flexible Transmission Dipstick
- Slim design allows mounting between header tubes
- Designed for use with factory or block hugger headers
- E-Z to Read flexible inner dipstick measuring cable for accurate measure of engine oil

1980 & later Small Block Chevy ED-5001 and GM Vortec Ram Jet 350 ED-5009

Small Block Chevy 1979 & earlier is on the driver side.
Small Block Chevy 1980 & later is on the passenger side.

Some aftermarket oil pans may require a custom made dipstick.

ANCHOR-TIGHT® LOCKING FLEXIBLE ENGINE DIPSTICKS

- Locking mechanism prevents expulsion of dipstick handle under pressure
- Holds vacuum
- Teflon®-lined Flexible braided stainless housing
- E-Z to Read flexible inner dipstick measuring cable
- Available for most engine applications
- Available in Brite or black

U.S. Patent No. 7,779,555

NHRA accepted for use in all categories of competition!

DRAG RACING PRODUCTS

DRAG RACING PRODUCTS

LOKAR DIAL-IN BOARD, CAGE MOUNT & UNIVERSAL ADJUSTABLE ANGLE MOUNT

- Mounts onto cage without interfering with roll bar padding
- No drilling required
- Bracket available for 1-1/2" cages and 1-5/8" cages
- Adjustable arm for leveling
- Quickly reversible Dial-in Board
- Also available in a universal adjustable angle mount style which can be mounted on a flat or angled surface (such as a scoop tray)

Cage Mount

Universal Adjustable Angle Mount Bracket

If you don't see your style of digital dial-in board call our tech department for support.

HEADER TETHER SYSTEM

- T-Bolt clamps for ease of installation
- Works with merge and standard collectors
- Cut-to-Fit tether cable for easy custom installation
- Stainless hardware
- NHRA accepted per General Regulations 1:3 Exhaust

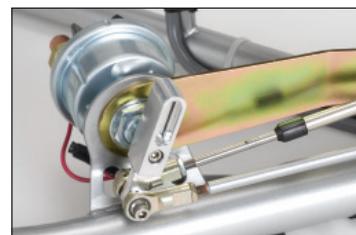

Merge collectors must be measured at the valley of the merge.

4500/4150 SERIES CARBURETOR PUSH/PULL THROTTLE CABLE MOUNTING BRACKET & SPRING RETURN KIT

- Designed for push/pull style cables using dual cylinder in-line throttle stops or single cylinder in-line throttle stops

Double In-Line Shown

- Includes short and long brackets to allow use of different throttle stop and cable styles
- Complete with two stainless steel return springs with dual wound ends for safety (eliminates single hook ends opening up)
- Adjustable angle throttle cable mount for obtaining correct angle, creating less strain on throttle cable
- When using a throttle stop, design allows cylinders to hang below and remain in-line, eliminating typical top mount "flopping"
- Adjustable spring tensioner
- Throttle plate also drilled for scoop tray (studs included)

Push/Pull Throttle Cable Mounting Bracket & Spring Return Kit Open Plenum

For street applications please see page 100.

4500/4150 SERIES CARBURETOR ROD TYPE THROTTLE LINKAGE SPRING RETURN KIT

- Designed for rod style linkage
- Complete with two stainless steel return springs with dual wound ends for safety (eliminates single hook ends opening up)
- When using a throttle stop, design allows cylinders to hang below and remain in-line, eliminating typical top mount "flopping"
- Adjustable spring tensioner
- Throttle plate also drilled for scoop tray (studs included)
