

2000 SERIES

RE-SPOOLER

Finally, a quick and practical solution for transferring bulk wire from large, heavy spools to smaller, more manageable work spools without tying up your busy coil winder.

It's so smart and simple you'll wonder how you've gotten by without it. The Re-Spooler makes it easy to maintain an inventory of right-sized spools ready for use on your winders.

2000 SERIES

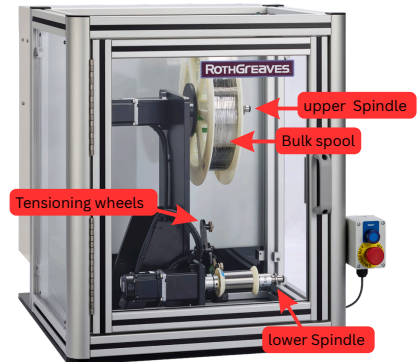

RE-SPOOLER

The desktop re-spooler has an active payout that is programmable using a load cell for direct reading in grams.

The 2000 series Re-Spooler also comes in a Full size version

The operator simply loads the bulk spool onto the upper spindle, then feeds the wire through the tensioning wheels down to the lower spindle

STANDARD SPECIFICATIONS

- **CE CERTIFIED**
- Desktop dimensions: 28 "L x 34"W x 29"H
- Full Size Dimensions: 37"L x 39"W x 76"H
- Power requirements: 208-240 VAC, Single Phase, 50/60 Hz, 10 Amp
- Pneumatic requirements: 80 psi @ 3.0 cfm
- Servo motors/Drive amplifiers: Spindles (2) – 400 watt, Carriage (1) – 750 watt
- Controller type: CNC multi-axis servo controller
- Operating System: Microsoft Windows 10
- Operating Software: EasyWind™
- Interface: 17" touch screen monitor and track ball keyboard
- Wire tensioning: Active payout
- Curtain with surround or door with surround
