FOR IMMEDIATE RELEASE

S2Technologies, LLC Achieves C3PAO Certification for CMMC Level 2 Compliance

Smithfield, NC — 08/27/2025 — S2Technologies, LLC, a leading provider of defense services and solutions, proudly announces that it has successfully completed the **Cybersecurity Maturity Model Certification (CMMC) Level 2** assessment, achieving certification through a Certified Third-Party Assessment Organization (C3PAO).

This milestone underscores S2Technologies' ongoing commitment to protecting sensitive government data, strengthening cybersecurity practices, and maintaining the highest standards of compliance required to support the U.S. Department of Defense (DoD) and its mission partners.

"Achieving CMMC Level 2 certification demonstrates our dedication to safeguarding controlled unclassified information (CUI) and delivering secure, reliable solutions to our customers," said **Maggie Stein,** CEO of S2Technologies. "This accomplishment reflects the hard work of our entire team and reinforces our position as a trusted partner for defense operations and mission-critical support."

The certification validates that S2Technologies has implemented rigorous cybersecurity controls and processes aligned with DoD's updated CMMC 2.0 requirements. With this achievement, the company is well-positioned to continue supporting current and future contracts that require adherence to enhanced cybersecurity standards.
