

# Introducing Scotts® Viridian™ St. Augustine

A revolutionary turf grass designed for Southern lawns.

## Cold Tolerance

Viridian™ offers impressive cold tolerance and vibrant seasonal color, making it a dependable choice for lawns in warmer climates.

- **Cold Hardy:** Handles winter better than Floratam, sustaining little to no winter injury in areas where temperatures rarely get below 15° (Zone 8b and warmer).
- **Spring Green-Up:** Greens up faster than Floratam with comparable green-up to Palmetto and Raleigh Texas.
- **Fall Color Retention:** Stays lush deep green, comparable to Palmetto and Raleigh Texas.

## Shade Tolerance

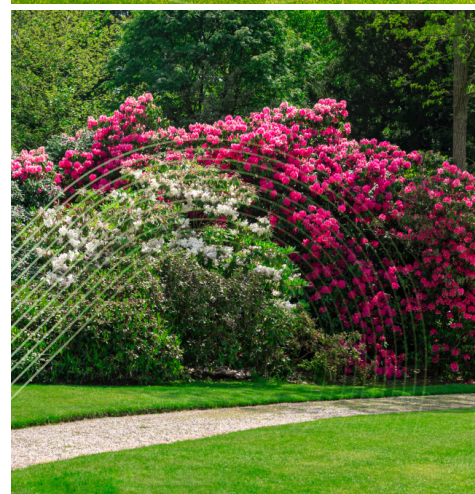

Viridian™ stands out with superior shade tolerance, maintaining a lush, high-quality lawn even in challenging low-light conditions.

- **Exceptional Shade Performance:** Maintains high turf quality in up to 80% shade.
- **Outperforms most varieties of St. Augustine:** Exceeds both Palmetto and Raleigh in performance when grown under 80% or more shade levels.
- **Consistent Quality:** maintains quality with vibrant growth in both full sun and dense shade.

## Reduced Mowing

Viridian™ lets you spend less time mowing and more time enjoying your lawn, with proven lower maintenance requirements.

- **50% Less Mowing:** Requires half the mowing compared to Floratam, Raleigh, and Palmetto.
- **Time & Cost Savings:** Fewer mowings means more time for you and less wear on your equipment.
- **Eco-Friendly:** Less mowing helps reduce mower emissions for a greener lawn care routine.

# Scotts Viridian™ St. Augustine

## Drought Tolerance

During periods of drought, Viridian™ keeps the lawn looking lush and green longer than other varieties of St. Augustine.

- **Outstanding Drought Tolerance:** Maintains high turf quality and rich green color during extended dry periods.
- **Long-Lasting Performance:** Maintains color and superior quality for 30-45 days without water, compared to just 14-21 days for other commercial varieties of St. Augustine.

## Gray Leaf Spot Tolerance

Viridian™ stands strong under heavy disease pressure, offering superior protection against gray leaf spot with less need for fungicides.

- **Superior Disease Resistance:** High tolerance to gray leaf spot, even under tough conditions.
- **Outperforms Other Varieties:** Shows significantly lower infection levels compared to Raleigh, Palmetto, and Floratam.
- **Low Maintenance:** Fewer fungicides needed to keep your lawn healthy and disease free.

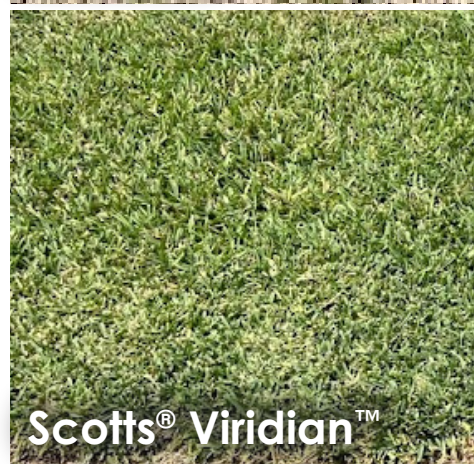

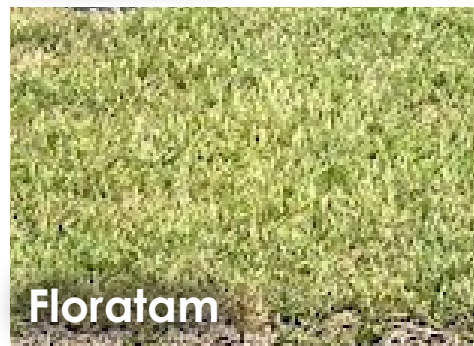

## Turf Quality and Color

Viridian™ has excellent turf quality and vibrant dark green color, making it an ideal choice for a stunning lawn.

- **Top-Notch Performance:** Matches or outperforms Palmetto, Floratam, and Raleigh in quality.
- **Rich, Dark Green Color:** Features a deeper green color compared to all conventional varieties.

## Drought Testing

Results after 21 days of zero water in Apopka, FL.
