

United in Faith: Building Bethany's Future is a comprehensive initiative to steward what God has given us into the decades ahead. This campaign synthesizes overdue facility renewal with strategic improvements that will strengthen ministry, welcome new generations, and support deeper engagement.

At its heart, this plan is guided by three commitments. The commitment we will focus on this weekend is **CARING FOR CRITICAL SYSTEMS**. Roofing, mechanical systems, lighting, and infrastructure have served well beyond their expected lifespan. Bethany will repair and strengthen essential systems proactively, reducing long-term risk and creating stability for ministries to continue without disruption. We will establish proactive maintenance planning and increase our maintenance reserves to ensure our resources are optimally used.

ADDRESSING NECESSARY INFRASTRUCTURE AND MAINTENANCE **\$500,000-\$700,000**

Faithful stewardship includes caring for critical systems that support everything Bethany does. Roofing, HVAC control systems, and security infrastructure have exceeded their intended lifespan and require proactive attention. Addressing these needs with an integrated multi-year work plan is more cost-effective, reduces long-term risk, prevents costly emergency repairs, and provides operational stability.

ENSURING FACILITIES STEWARDSHIP **\$500,000-\$1,000,000**

In keeping with best practices for facilities management, Bethany will materially increase its Deferred Maintenance account in order to better provide for the proactive upkeep of its facilities. Bethany will establish a rolling capital maintenance and improvement schedule to optimize use of our resources and better provide for large capital items.

CREATING SUSTAINABLE AND RESPONSIBLE ENVIRONMENTS **\$500,000-\$600,000**

Bethany is committed to caring for creation and stewarding resources wisely. This portion of the campaign focuses on improving energy efficiency and long-term operational sustainability. Improvements include continued replacement of lighting with energy-efficient LED fixtures. The installation of solar panels designed to significantly reduce annual energy costs is being explored.

GENEROSITY THAT STARTS WITH GOD

When our church invites us to give, our first instinct may be to check with our spouse, our budget, our bills, or our financial advisor. These are wise steps—but for people of faith, they are not the first step.

God is alive, active, and deeply engaged with us. God is our Maker, Redeemer, Sustainer, and Friend. Our giving grows out of our relationship with God. As we spend time in prayer, scripture, and worship, we begin to see our lives and resources through God's eyes.

John 3:16 offers the clearest picture of divine generosity: "For God so loved the world that God gave..." God's giving flows from God's love and connection with the world. When we draw near to God, that love shapes our hearts. We give not from pressure, but from gratitude and compassion.

The closer we walk with God, the more we notice the needs around us. Our priorities shift, and generosity becomes a natural response. We share our time,

talents, and treasures because they reflect the heart of God alive in us.

So before deciding what to give, begin with prayer. Ask God to guide you into generosity that comes from a living, growing relationship—and watch how that relationship transforms your giving and your life.
