The best of Haier technology, inspired by you

For over 40 years, we've understood that the best ideas come from real homes, where people live and create. Driven by a relentless passion for excellence and a deep connection with our customers, we develop intuitive and reliable solutions designed to enhance daily life, giving you more time for yourself and greater control over your home. From redefining the modern kitchen to creating a fully connected IoT ecosystem for the home, we develop intelligent, high-quality appliances that work together seamlessly to meet your needs.

Why
choose
Haier
appliances?

Haier is a recipient of the Terra Carta Seal which recognises global companies which are actively leading the charge to create a climate and Nature-positive future. Designed by Sir Jony Ive, the Terra Carta Seal embodies the vision and ambition of His Majesty King Charles III and the Terra Carta, as a recovery plan for Nature, People and Planet.

We are proud to have received the prestigious Chain of Custody certification from the Forest Stewardship Council (FSC). The Chain of Custody verifies that forest-based materials used in Haier Europe's products are sourced, produced, and distributed in compliance with the rigorous standards set by the Forest Stewardship Council, the world's leading authority on forest certification.

Haier has been honoured with two esteemed iF Design Awards in the kitchen appliances category for its iD Series 6 Oven and X Series 11 Washing Machine and Tumble Dryer. Celebrated by the world's oldest independent design organisation for their unique style and innovative design, these accolades highlight Haier's dedication to advancing user experiences within increasingly technological ecosystems.

We stand behind the advanced technology, premium components, and meticulous engineering of our products with a robust after-sales service promise. Selected built-in and freestanding appliances are backed by a 10-year parts and labour warranty, providing complete reassurance and confidence in their long-lasting, exceptional performance.

Your app for a smart and sustainable home. Taking durability, water and energy efficiency to the next level, our products can be connected to WiFi and the hOn app for smart tailor-made solutions. Monitor energy consumption, educate on sustainable habits and manage your appliance remotely to make the most of its performance.

TECHNOLOGY that perfectly adapts to your daily life

UNIQUE ADVANCED TECHNOLOGIES

Haier's kitchen appliances seamlessly integrate cutting-edge smart technology and customised experiences to deliver superior performance and exceptional results. With AI integration for smarter operation, innovative sensors, and hOn app connectivity, you can control, monitor, and personalise your appliances remotely.

SUPERIOR DESIGN

Our products are designed to cater to diverse needs and preferences, ensuring a perfect fit for any home. Haier's extensive range features exquisite finishes and designs, with innovative installation options for hobs and dishwashers, providing seamless solutions for effortless setup.

TAILOR-MADE EXPERIENCE

Haier provides expertly crafted solutions tailored to the needs of any home, including intelligent ovens that recognise food and recommend optimal cooking cycles, spacious double-door fridge freezers with bespoke food preservation zones, and wine coolers that maintain ideal serving temperatures for both red and white wines.

Haier

10-YEAR PARTS & LABOUR WARRANTY

Guaranteed technology and performance for years to come

Our home appliances are meticulously crafted to enhance your daily life, delivering outstanding performance and exceptional results. Demonstrating our commitment to reliability, quality, and innovation, we provide an extended 8-year parts and labour warranty, in addition to the standard 2-year manufacturer's warranty. To view the full list of eligible appliances and to register your warranty, please visit www.haier-europe.com/warranty

YOUR APP for a smart & sustainable home

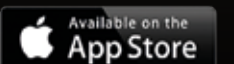

Discover a connected tailor-made experience

hOn transforms your home into a smart, connected ecosystem, ensuring optimal performance of your appliances, maximising energy efficiency, and reducing your environmental impact.

CONNECTED SOLUTIONS FOR YOUR HOME

Our homes are becoming increasingly connected, and kitchens are no exception. With Haier's hOn app, you can effortlessly manage your appliances from your phone. Whether it's ensuring optimal wine preservation through a partnership with Vivino or efficiently controlling your energy usage, Haier delivers smart solutions that truly enhance your home.

Cooking Collection

iD SERIES OVENS DISCOVER THE POWER OF VISION

The design-award-winning **Haier ID Series Wi-Fi oven with AI camera** offers you a personalised cooking experience thanks to Bionicook, which combines technology with the human touch.

Bionic Vision combines AI and an internal oven camera to recognise the food cooking and learn your personal preferences. Whether you prefer extra crispy or soft in the middle, Bionic Vision will recognise, monitor and cook the dish to your ideal finish.

Ensuring you cook to perfection every time without wasting energy, **Bionic Precision** ensures accurate temperature control from leavening at 30°C to crisp pizza at 300°C +/- 1°C thanks to a **wireless food probe** and state-of-the-art intelligent heat sensors.

With **Bionic Flexibility**, the extra-large 78-litre capacity and 7 cooking levels means you can cook your starter, main and dessert at the same time. Its clever internal design optimises ventilation for even heat distribution across every shelf without the worry of flavour transfer. Plus, with **Bionic Intelligence**, you have access to over 300 chef-approved recipes, perfect for mealtime inspiration.

Illuminate your cooking status and make a statement in your kitchen with **Haier's Part Light**. This illuminated bar between the control panel and the oven door lets you check the status of your food from afar with a timed light that reduces as your dish cooks.

User Interface

With a range of options **designed to complement any kitchen style**, the TFT display offers an intuitive interface that adapts to every need, ensuring a **smooth and personalised cooking experience**.

Premium TFT UX
Dive into an extraordinary visual journey with the vibrant 6.8” TFT colour touch display, navigate and control your cooking with a variety of recipes directly on the oven screen. The oven automatically adjusts settings for each recipe, ensuring flawless results, while regular updates enhance performance and improve your cooking experience.

Colour UX
Elevate your culinary experience with the **3.97” TFT display**, designed for exceptional clarity and effortless navigation, regular updates enhance performance and introduce new features, while providing access to a wide selection of recipes directly from the oven screen.

Graphic UX
Designed for effortless control and precision, this user interface enhances your cooking with a minimalist and intuitive design. The **LCD Screen** is structured into three distinct sections, providing clear and efficient management of cooking functions, temperature and time.

Bionic Steam

Haier Bionic Steam **enhances flavour** with precision, using expertly tested algorithms for perfect taste and texture. A wide range of steam technologies lets you choose the ideal option for your needs:

60CM ID SERIES 6 MULTI-FUNCTION WI-FI OVEN WITH STEAM - H6 ID68M5HTB1

KEY FEATURES

- Steam-assisted cooking
- Functions: 25+ WiFi
- Oven capacity: 78L
- Haier Colour UX TFT Display

- Pyrolytic Cleaning
- Steam Cleaning
- WiFi Connected
- Soft-close & soft-open hinges
- Double Grill
- AirFry Function
- 7 Cooking Levels
- Temperature Range: 30°C-300°C
- Dark inox & black glass

33703999

The Art of Steam Cooking

By adding water into the cavity from the the Steam Vessel, a gentle cloud of steam is created within minutes. This enhances the flavour of meat, giving it a richer taste and a lightly mouth-watering crust. Vegetables become even more delicious, with a perfectly crisp finish.

Beautifully Simple

1. Pour 200ml of water into the steam vessel
2. Place Food in the oven
3. Select one of the 3 dedicated food categories (Meat, Fish, Vegetables)
4. Enjoy your favorite food cooked with a touch of steam.

Cleaning Made Easy

Effortlessly remove dirt with steam cleaning. Simply add water to the dedicated Steam Vessel, select the cleaning programme, and allow the oven to do the work. No chemical detergents required. Once the cycle is complete, any remaining residue is gently softened for easy wiping.

**ID SERIES 6 MULTI-FUNCTION WI-FI OVEN
WITH AI CAMERA - H6 ID68M5YTB1**

A new architecture to perfectly fit any kitchen

Flexible bridging zones, perfect for large or awkward cook wear ensuring no hot spots and perfectly even cooking temperatures

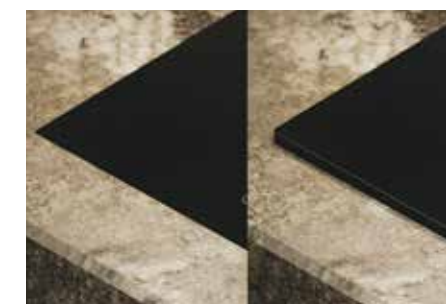

Reduce installation time with automatic positioning using spring clip fixings. The springs securely hold the hob in place, eliminating the need for silicone or additional materials, streamlining the installation process.

The **new 47mm ultra-slim bottom box** is crafted to fit worktops ranging from 12mm to 40mm. Requiring only a 1cm gap, it eliminates the need for a larger space between the oven and hob, while rear ventilation guarantees a sleek, seamless front appearance with no visible gaps.

VariCook provides a solution for **temperature control in an instant** with no need to touch the controls. Glide your pot or pan up to increase the power, perfect for adding a sear to a steak. Slide it down to reduce the power, ideal to prevent overboiling or burning. The perfect solution for instant control when you need it most.

Achieve a sophisticated look with a **flush installation** that eliminates unnecessary junctions, creating a smooth, seamless surface with no visible gaps or frames. This modern, frameless design enhances your kitchen's aesthetic and simplifies cleaning, combining both functionality and elegance.

Framed installation offers a classic, mounted finish with visible edges and a defined border around the cooktop. It provides durability and ease of maintenance, balancing practicality with timeless appeal to suit a range of kitchen styles.

Haier Lunar Matt Black

The Lunar Black Matt Induction Hob features a **velvet-feeling matt glass** designed to stay flawless over time.

Its surface is up to five times more scratch-resistant and resists fingerprints, **cutting cleaning time in half**.

A **modern, elegant design** combined with AI-powered automatic temperature control that delivers precise cooking and lasting beauty, every day.

33803654

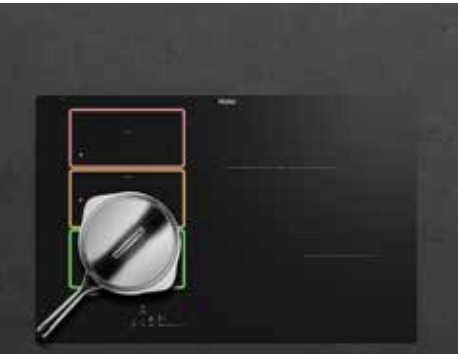

SURFACE THAT ADAPTS TO EVERY PAN

Flexi Zone combines cooking areas, giving the freedom to use, large, long, or differently shaped cookware.

NO OVERBOILING OR SPILLS

The boiling sensor monitors the temperature, alerts you at boiling point, and automatically reduces heat to avoid overboiling.

SMOOTH HEAT ADJUSTMENT

Switch between 3 heat zones just by gliding your pot thanks to VariCook.

ANTI-REFLECTIVE

Reduced glare for clear visibility and maximum elegance.

ANTI-SCRATCH

5x more resistant than traditional glass hobs.

ANTI-FINGERPRINT

A refined finish that keeps the surface looking clean and flawless.

ID-SERIES 6 Vented Hobs

A stylish & high performance hob range that are engineered for maximum efficiency and effectiveness. Vented hobs integrate extractors to the hob itself removing the need for overhead extraction. Giving you the benefit of added storage above or kitchen island installation while maintaining a clean and modern aesthetic.

60CM VENTED INDUCTION HOB - HAIH6IEMCF

- Max capacity: 350ml
- Non-stick jug

ACCESSORIES INCLUDED

- Metal filter
- Cleaning brush

37800002

SERIES 5 I-MASTER TOASTER - HTO5A3

- XL slots to fit slices up to 15cm tall and toast right to the edge
- Crispy Side setting for bagels
- Memory function
- 7 browning settings
- Lift and look lever
- Crumb tray

37600004

SERIES 5 I-MASTER KETTLE - HKE5A

- 7 temperature settings
- Efficient 250ml minimum boil
- Rapid boiling power at 3000W
- Up to 40% energy saving¹
- Keep Warm function
- Removable lid
- Max capacity: 1.7L (7 cups)

ACCESSORIES INCLUDED

- Removable lid
- Anti-limescale filter

¹ Energy saving measured considering 0.25L of boiled water as a minimum vs minimum of 0.5L in most kettles

37700004

Small Kitchen Appliances

Our range of stylish appliances are designed to enhance convenience and efficiency, delivering a superior cooking experience.

Series 7 I-Master Kettle - HKE7W

- Precise 1°C temperature control
- Efficient 250ml minimum boil
- Rapid boiling power at 3000W
- Keeps water warm for up to 12 hours
- Up to 80% energy saving 1
- Max capacity 1.3L (5 cups)

ACCESSORIES INCLUDED

- Removable lid
- Anti-limescale filter

¹Energy saving measured considering 0.25L of boiled water as a minimum vs minimum of 0.5L in most kettles

37600003

Series 7 I-Master Blender - HBL7W5

- 3 appliances in 1 : make smoothies, dips, doughs and more
- Multi-layered blades
- 6 programmes including Auto Clean
- AI adjusts torque, time and speed for optimal results
- Suitable for soups and hot foods up to 80°C
- Dishwasher-safe parts

ACCESSORIES INCLUDED

- 2L Multiserve jug
- 0.5L Chopper bowl
- 0.7L Personal cup + Travel lid
- Kneading blade

38400003

Series 7 I-Master Toaster - HTO7W2

- Wide slot fits a variety of bread types
- 12 presets including bagel, pizza, defrost & reheat
- Glass viewing windows: removable & dishwasher-safe
- Digital countdown timer
- Electronic riser
- Crumb tray

ACCESSORIES INCLUDED

- Sandwich cage

37600003

Cooling Collection

SERIES 6 FRIDGE FREEZER

Equipped with the latest preservation technologies, the **Series 6 Fridge Freezer** is fully connected and driven by Artificial Intelligence. Our revolutionary Fresher Techs® are technological innovations that meet one need: keeping your food tastier, fresher and healthier for longer.

Haier's Daylight Interior Lighting system illuminates every shelf in the fridge so that you can find what you need easily. Whether it's your everyday essentials at the front or treats hiding at the back, the brighter light makes organising and restocking your fridge effortless. Plus, the LED's soft glow which gradually gets brighter as the doors are opened, is sensitive to your eyes thanks to the progressive lighting system.

Practical, efficient and bespoke to your needs, **My Zone** lets you independently control the temperature of the fridge dependent on the food you are storing.

Thanks to AI that anticipates your needs, **Proactive Temperature technology** adjusts the fridge according, this innovative feature can adjust the fridge's temperature according to your habits, the weather conditions outside, and your location when you're out shopping.

Preserve your food's taste and texture with **Air Surround* technology**. It uses special outlets on the sides of the cabinet to help distribute cool air more evenly throughout the fridge. This helps prevent your food from drying out, so it's as crisp, juicy, and delicious as the day you bought it.

*Test results issued by an independent external technical laboratory comparing Haier's CFE735CSJ Air Surround model with Haier's CVBN6184WBF/S1 Direct Flow model.

SERIES 6 Built-In Fridge Freezer

Freshness tailored to your needs, featuring sleek design and advanced technology that combines the functionality of a freestanding appliance with a built-in configuration.

Washing Collection

X SERIES 11 WASHING MACHINE

Enjoy just-washed laundry freshness after every cycle with our most efficient and sustainably performing washing machine ever- **X Series 11 Washing Machine**. Ultra Fresh Air and AI technology combined with our 10-year parts and labour warranty, guarantees the best ever wash for professional results at home.

The most efficient
and sustainably
performing washing
machine ever
from Haier.

Ultra Fresh Air keeps your fabrics free of odours and bacteria after the cycle has finished, so you can say goodbye to re-washing musty smells from damp laundry. This intelligent technology continuously draws fresh air into the machine, gently circulating within the drum before releasing it out again. This creates a fresh environment inside for up to 12 hours, meaning your laundry won't smell damp or require another wash.

AI automatically detects the size of the load and the type of fabrics you're washing and adjusts the wash action, detergent dosage, water and energy consumption accordingly thanks to **Smart Cycle technology**. With over 2,500 possible combinations, everything from socks to bedding will enjoy customised results.

Take the guesswork out of doing the laundry with the **Smart Dosing system**. It intelligently calculates the exact amount of detergent and softener needed for your washes based on the weight of the load. So you can fill once and enjoy up to 20* accurately dosed washes with less mess, less waste and more savings.

*Based on load and soil level of an average consumer wash

With built-in energy-saving features, this washing machine will keep your energy bills low while protecting the environment. It's our most sustainable and efficient machine ever with an **A-40% energy rating**, saving you over 40% on energy per year*. The Direct Motion Motor technology which uses fewer moving parts to increase durability, also helps to reduce water and energy consumption. Plus, with intelligent programmes and AI sensors that adjust the wash settings to suit the load, you can enjoy incredible results and save money.

*vs an equivalent A-rated 11kg model.

Dishwasher Collection

I-PRO SHINE SERIES 6

A performance powerhouse taking cleaning to new standards and minimising environmental impact with 60% better cleaning performance versus a standard dishwasher. The H-Spray Arm doubles cleaning coverage in both directions for a consistent and thorough clean, while the Cutlery Shine Plus 3rd drawer features mechanical rotating nozzles and a top spray for spotless results. Combined with the innovative and efficient technology built into the Ultra-Dry System, I-Pro Shine promises the best ever clean and dry.

The new **H spray arm** gives you a rapid and more thorough clean. The spray arm sits at the bottom of the dishwasher and has been designed to move in two different directions to help the water reach those difficult nooks and crannies for an all-around better clean.

Give your utensils some extra sparkle with Haier's **Cutlery Shine Plus** technology. Simply arrange your cutlery in the top basket and let five rotating water nozzles and an additional spray arm clean everything with the perfect amount of water, pressure, and precision for outstanding results.

Give your dishes the ultimate clean with Haier's **Powerwash**. It uses extra jets in the lower basket to spray four times more water without impacting consumption. It's perfect for cleaning your heavy-duty cookware as it effortlessly blasts away stubborn stains and baked-on food for sparkling results.

Take the guesswork out of choosing the right wash settings with Haier's **smart sensor technologies**. It uses in-built and AI sensors to calculate how dirty your dishes are and automatically adjusts the wash settings to suit the load. This means you only ever use the right amount of water and energy, saving you time and money.

SERIES 6 I-Pro Shine Dishwasher

Energy-efficient features, spacious design, and intelligent AI cycles, ensure optimal results while minimising environmental impact.

Easy installation

Seamless and precise solutions for simplified setup

For a **smooth and straightforward installation** experience, all of our dishwashers are supplied with a full-size fitting template. Sticking directly to the door, the guide details the tools you'll need with easy-to-follow universal diagrams and scale measurements for accurate drilling. If you need a little extra help, each step has a QR code that takes you directly to an easy-to-follow video to guide easier installation.

For optimum cleaning performance, dishwashers should be perfectly levelled during installation. With our **easily accessible rear foot**, there's no need to pull the appliance out. Simply adjust the height of the rear foot using a conveniently located central screw on the front of the machine. Ideal for small adjustments over time to keep your appliance perfectly level without the hassle of removal.

Reducing installation time compared to standard doors, our hinge systems have options to suit every space. Ideal for kitchens with linear design or for a zero-plinth solution*, **sliding door hinges** make installation seamless with a 6-screw, click-on system. For the smoothest door movement, Double Fulcrum hinges offer a robust and stable base ideal for non-standard door lengths with a panel weight of 2-9kg.

SERIES 6 Double Dish Drawers

A new efficient way of
optimising dishwashing

The Double Drawer dishwasher is set to redefine usability with its innovative design and advanced technology. Its customisable wash cycles, including the option to **operate each drawer independently**, offer unparalleled flexibility and tailor-made results to suit your needs.

Additionally, the **'knock to pause'** feature allows you to effortlessly interrupt the washing cycle with a simple knock on the door, introducing a new level of intuitive control to your dishwashing experience.
