# Board of Adjustments and Appeals

## Application for Variance

(Page 2)

### Justification:

The Board of Adjustments and Appeals requires that each applicant respond to the following four questions (Please refer to the attached checklist for further explanation):

1. What are the specific conditions related to this request that are unique only to the applicant's land and do not exist on other land in the same general vicinity, or in the same zoning district?

*The proposed Building will Not be Directly behind the house  
however, this is not unique in this area.*

2. If this variance were not granted, how would this deprive the applicant of reasonable use of the land in a manner equivalent to uses permitted to other landowners in the same zoning district?

*This Building would not be accessible For use as a  
Garage, if not located as shown.*

3. Are the unique conditions and circumstances a result of actions of the applicant taken after the adoption of the zoning regulations from which relief is sought?

*No*

4. How will the variance preserve, and not harm, the public safety and welfare of the public and maintain the essential character of the neighborhood?

*The location for the Garage is not unique to this location,  
other properties have Built similar Buildings in this zone which  
are located in the side or front of the House. There are no  
other neighbors or property owners that have to use the  
Road. lots # 19 and 18 are owned by Tony Karimi as well.*
