Board of Adjustments and Appeals

Application for Variance

(Page 2)

Justification:

The Board of Adjustments and Appeals requires that each applicant respond to the following four questions (Please refer to the attached checklist for further explanation):

1. What are the specific conditions related to this request that are unique only to the applicant's land and do not exist on other land in the same general vicinity, or in the same zoning district?

Pre shaped lot on a culdesac with 2 houses. Property slopes in the back of side field where our septic is located. Septic is gravity-fed in this area no building or driveway can be placed here. Our field is next to the neighbors horse field.

2. If this variance were not granted, how would this deprive the applicant of reasonable use of the land in a manner equivalent to uses permitted to other landowners in the same zoning district?

We would not have the ability to place a garage/ pole barn on our property. Having this would provide security for our vehicles, property equipment (tractor mower) and delivery truck full of product along with storage of household items that if we had a basement could be stored there, but we don't

3. Are the unique conditions and circumstances a result of actions of the applicant taken after the adoption of the zoning regulations from which relief is sought?

Yes

4. How will the variance preserve, and not harm, the public safety and welfare of the public and maintain the essential character of the neighborhood?

This will allow us to store our tractor mower, etc. out of the view of our neighbors. Also to be able to put the bright yellow box truck in the garage out of the view of the neighbors. Added property value
