Board of Adjustments and Appeals
Application for Variance
(Page 2)

Justification:

The Board of Adjustments and Appeals requires that each applicant respond to the following four questions (Please refer to the attached checklist for further explanation):

1. What are the specific conditions related to this request that are unique only to the applicant's land and do not exist on other land in the same general vicinity, or in the same zoning district?

Nothing unique. I'm requesting for a variance to allow for an additional 400 square feet to a future detached garage project. This extra space will allow for proper storage of our large items (camper, cars, Boat, Jet skis, yard equipment, and trailer) and would also allow enough space for a future pool house/pool equipment room.

2. If this variance were not granted, how would this deprive the applicant of reasonable use of the land in a manner equivalent to uses permitted to other landowners in the same zoning district?

if this were not granted, I do believe it would deprive our family of reasonable use of our land in a manner equivalent to uses permitted to other land owners in the same zoning district. there are at least a dozen homes in the neighborhood with equivalent detached garages, buildings, and/or pool houses.

3. Are the unique conditions and circumstances a result of actions of the applicant taken after the adoption of the zoning regulations from which relief is sought?

N/A

4. How will the variance preserve, and not harm, the public safety and welfare of the public and maintain the essential character of the neighborhood?

allowing this variance will maintain the essential character of the neighborhood by allowing me to properly store my items out of sight, keeping the property looking clean, tidy, and up to the standards of the pickiest of neighbors.
