***Additional Requests:***

A. Are there any variances required? No

If yes, attach a list including each variance and from which section of the Zoning Ordinance the variance is requested. Each request for a variance must also include a justification statement in response to the following questions:

1. What are the specific conditions related to this request that are unique only to the applicant's land and do not exist on other land in the same general vicinity, or in the same zoning district?
2. If this variance were not granted, how would this deprive the applicant of reasonable use of the land in a manner equivalent to uses permitted to other landowners in the same zoning district?
3. Are the unique conditions and circumstances a result of actions of the applicant taken after the adoption of the zoning regulations from which relief is sought?
4. How will the variance preserve, and not harm, the public safety and welfare of the public and maintain the essential character of the neighborhood?

Variances are needed when a major subdivision conflicts with specific dimensional requirements of the Oldham County Zoning Ordinance.

B. Are there any waivers required? No

If yes, attach a list including each waiver and from which section of the Subdivision Regulations the waiver is requested. The Commission may reduce or otherwise grant waivers from the requirements of the Oldham County Subdivision regulations whenever it encounters the situations described below.

- A. Exceptional Hardship – Where the Commission finds that strict compliance with these regulations would create an undue hardship because of exceptional unique topographic or other natural or man-made physical conditions encountered on the particular land, the Commission may modify these regulations to the extent necessary to relieve the undue hardship.
- B. Design Innovation and Large Scale Development – These regulations may be modified by the Commission in the case of plans for complete neighborhoods or other design innovations which, in the Commission's opinion, still achieve the basic objectives of these regulations.

Requests for waivers must be justified based on one or both of the above situations.

C. Does the major subdivision require a zoning map amendment (zoning district change)? No

If yes, a separate Zoning Map Amendment application is required.
