sensory NOOK®

PRODUCT BROCHURE

2026/2027

THE SENSORY SIDE OF NOOK PODS

Sensory Nooks are personal mobile sensory support pods. They have been designed by **sensory specialists** AmbiSpace ltd & Nook Wellness Pods to provide an easy affordable way to help people with special needs and disabilities survive everyday public places.

They do this by **reducing sensory overload** from the wider environment., creating a controllable capsule in which neurodiverse individuals can self regulate and function to the best of their individual ability.

THE PRACTICAL SIDE OF SENSORY NOOK

Sensory Nook is highly supportive of neurodiversity and provides a calming **sensory refuge** for people of all ages with Special Educational Needs and Disabilities (SEND).

They are a flexible way to **increase accessibility and inclusion** in schools, care homes, sports arenas, libraries, diners, shopping malls, medical waiting rooms, leisure venues and most public places.

sensory NOOK®

A noise reducing sanctuary with controllable lighting to influence mood & support hidden disabilities.

SENSORY NOOK

SUPPORT 90

Sensory Nook Support is an instant & flexible well-being provision for everyone.

INCLUDES:

- NOOK QUIET SANCTUARY, TABLE & BENCH SEATS **0.9M DEPTH**
- RGBW COLOUR CHANGE LIGHT WITH FIXED TOUCH CONTROLLER
- FIBRE OPTIC CARPET WALL PANEL WITH TWINKLING LIGHT EFFECT

This is the ideal supportive workspace, empowering occupants to focus and deliver their best work more efficiently.

It provides a functional respite area actively helping people experiencing sensory overload to lower anxiety levels and recharge their resilience to cope with everyday pressures. **For 1-4 persons.**

sensory NOOK®

Proactive intervention and positive distraction for people who need controllable stimuli to re-balance sensory overload from the wider environment.

www.sensorynook.co.uk

SENSORY NOOK

INTERACTIVE 90

Sensory Nook Interactive is an actively stimulating mobile sensory pod.

INCLUDES:

- NOOK QUIET SANCTUARY **0.9M DEPTH**
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS CONTROLLER
- INTERACTIVE WALL PANEL (CHOICE OF: INFINITY MIRROR, SOUND TO LIGHT, SNOWFALL OR COLOUR BLEND)
- UV FIBRE OPTIC STRANDS
- FIBRE OPTIC TWINKLE WALL CARPET
- MIRROR PANEL

This interactive sensory pod provides cause and effect feedback for stronger engagement and active distraction from outside elements.

The interactive wall panels offer a range of enhanced sensory features that have been expertly created to support special needs education. The overall calming effect of the Sensory Nook Interactive ensures learning remains fun, engaging and manageable. **For 1-2 persons.**

sensory NOOK®

Proactive sensory space with a little extra room to move around, stretch out and relax.

www.sensorynook.co.uk

SENSORY NOOK

INTERACTIVE 120

Sensory Nook Interactive 120 is an actively stimulating mobile sensory pod with extra space for relaxing.

INCLUDES:

- NOOK QUIET SANCTUARY **1.2M DEPTH**
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS CONTROLLER
- INTERACTIVE WALL PANEL (CHOICE OF: INFINITY MIRROR, SOUND TO LIGHT, SNOWFALL OR COLOUR BLEND)
- UV FIBRE OPTIC STRANDS
- **FIBRE OPTIC TWINKLE WALL CARPET FULL HEIGHT**
- **VIBRATING FLOOR PAD**

This deeper **interactive** sensory pod provides more space and a greater sense of calming encapsulation for a more powerful sensory experience.

The full height fibre carpet and vibrating floor pad add a visual, tactile and haptic sensory element for faster calming and anxiety relief. **For 1-2 persons.**

sensory NOOK®

With a footprint of 2m x 1.5m this is a highly effective sensory pod for unobtrusive inclusion.

www.sensorynook.co.uk

SENSORY NOOK

INTERACTIVE 150

Sensory Nook Interactive 150 is a spacious mobile sensory pod with a retractable screen for a comforting sense of enclosure.

INCLUDES:

A multi-sensory experience, adaptable to meet a wide range of individual needs and preferences.

Explore the interactive elements or relax in a proactively calming space. This is a greater place to bring the joy of reading alive with lighting control and vibration adding special effects. **For 1-4 persons.**

sensory NOOK®

An oasis of calm in which to escape, reduce anxiety levels and bring crisis situations under control.

www.sensorynook.co.uk

SENSORY NOOK

ESCAPE 90

Sensory Nook Escape provides a closed in space that gives a sense of security and calm.

INCLUDES:

- NOOK QUIET SANCTUARY **0.9M DEPTH**
- FIBRE OPTIC TWINKLE CARPET WALL & ROOF PANELS
- VIBRATING FLOOR PAD
- UV FIBRE OPTIC STRANDS
- PRIVACY PULL ACROSS SCREEN

Public places can become totally overwhelming for people with special needs, particularly those with autism. This is a major barrier to inclusion.

This Sensory Nook provides a discreet closed in space that reduces excessive sensory input and provides an emotionally secure and calming place to regain balance and self-regulate. This enables people to attend in confidence and stay for longer. **For 1 person.**

sensory NOOK®

Fully controllable multi-sensory mobile mini sensory room.

www.sensorynook.co.uk

SENSORY NOOK

SENSORY NOOK SPECIFICATIONS

Nook Pods are ergonomically designed to created inviting, safe personal spaces without isolation.

They actively reduce noise from the wider environment to protect & provide respite for the people inside.

Locking castors provide mobility and security when in place. They can be removed at installation for a fixed Nook Pod. Sensory Nook requires a single plug socket to power on.

SENSORY NOOK PRIVACY SCREEN FOR ENHANCED SERENITY

Sensory Nooks are designed to create an oasis of calm for people who need to self-regulate in what can feel like a chaotic out of control world.

The **Privacy Screen** forms a barrier to the outside environment for an even more effective sensory calming experience.

It fixes securely to the side of the Nook Pod and retracts smoothly to one side when not in use for neat space efficient storage.

Privacy: Creates a truly personal space for effective self-regulation.

Retro-fit: Can be added to all existing Nook Pods as a serenity upgrade.

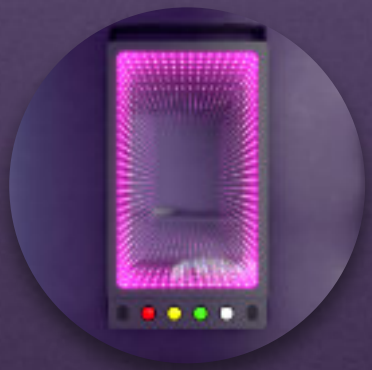

Personalisation: We can print your screen with customised branding & theming.

Space efficient: Your Nook footprint remains the same due to our clever slide and retract design.

FEATURES & BENEFITS
CHOOSE YOUR INTERACTIVE PANEL

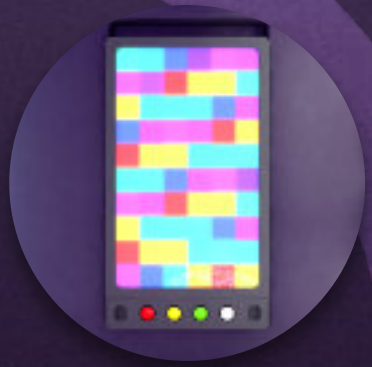

Interactive Infinity Panel

Captivates with its mesmerising moving light patterns, offering a visually engaging and calming sensory experience. It can be used passively to create a tranquil ambience or interactively for user engagement. With in-build robust user controls, it's easy to customise the experience, and the inclusion of soundtracks adds an extra dimension, enhancing the sensory journey within the Sensory Nook.

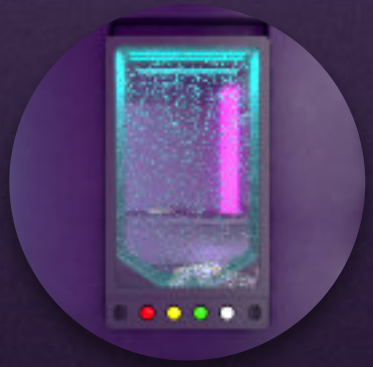

Interactive Colour Blend Panel

A stimulating and educational way to learn about colours and their mixing. Preloaded with a selection of patterns and colours, it engages users in a visually rich experience. Users can also select from preloaded soundtracks, enhancing the multi-sensory aspect. With robust user controls, it's easy to personalise the experience, making it an engaging and versatile tool for both learning and sensory exploration.

Interactive Rhapsody Panel

A dynamic addition to the Sensory Nook. It transforms sound into reactive light patterns, providing a multi-sensory experience that can both engage and calm users. Its interactive nature allows users to actively participate, fostering sensory exploration, while its in-built robust user controls make customisation easy. With the ability to respond to sound, it adds an extra layer of engagement and is a valuable component for creating an immersive sensory environment.

Interactive Snowfall Panel

Creates a mesmerising experience with artificial snow falling in front of a mirror, illuminated by colour-changing LED lights. Its robust user controls allow for customisation, enhancing the sensory journey within the Sensory Nook. Additionally, the option to select soundtracks, including white noise, a vacuum cleaner, and a washing machine, demonstrates a thoughtful approach to supporting neurodiversity by catering to a range of sensory preferences and sensitivities, making it a versatile and inclusive addition to the Nook.

FROM 10 MINUTES TO 2 DAYS ...

“When you go to a music festival with three autistic children you do wonder if you will last more than ten minutes. Thanks to Sensory Nook being at Wonderfest we lasted two days!

All three of my children visited their area but my nearly seven year old daughter especially made them her safe place for the weekend.

On day two she had a meltdown and started running ... she kept running straight across the field and straight into one of the Sensory Nooks! She laid down for around twenty minutes amongst the lights, no talking and managed to re-regulate herself. Normally in that situation it would have been game over for us and home time – This allowed us to continue on for a while longer.

All schools should have one of these and I’m going to grovel with both of the special needs schools that my children attend and see if we can fund raise for one, now having witnessed how instantly helpful they are! Thank you Sensory Nook! It was an absolute godsend for us!”

Michaela - A visitor to Wonderfest

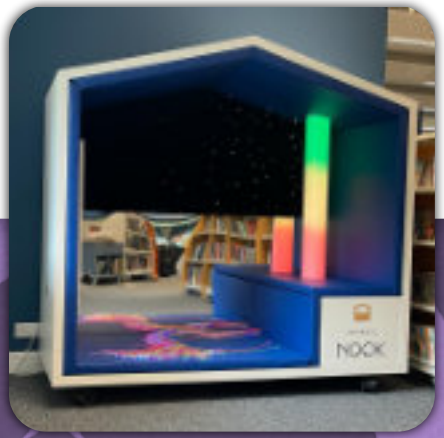

INCLUSIVITY IN LIBRARIES

“When we discovered the Sensory Nook Interactive, it fitted all our needs. It is self-contained and has a range of sensory options that children can choose to interact with to distract from other things happening nearby or can simply be used as a relaxing space - this dual purpose is perfect for our library which has a high footfall. We can now offer a better, inclusive library experience to all children, including those with additional needs.”

“My son is 5, autistic, non-speaking and has very high support needs. His special interest is books. This morning we visited Tiverton Library which he loves (especially the lovely sensory area)...The Sensory Nook is incredible, has made the library so much more accessible for us as a place for him to rest and we always feel so welcome”
