Vision care

Vision care helps protect the health of your eyes by providing services that often aren't covered by regular medical insurance.

Protecting your eyesight means allowing for routine eye exams, as well as access to glasses and contacts. Help keep your eyes in great shape at any age — no matter how much time you spend staring at digital screens.

Who is it for?

Even if you have perfect eyesight, it's important to have regular eye exams to make sure you're still seeing clearly. Many people eventually need vision correction, which is why we offer vision care to manage some of the costs.[1]

What's included?

Vision care helps pay for services not typically included in medical insurance plans. This may include routine eye exams, support toward the cost of eyeglasses and contact lenses, and access to discounted pricing on corrective LASIK surgery.

Why should I consider it?

Regular eye exams can help detect more than failing eyesight, they can also pick up on symptoms associated with diseases like glaucoma and diabetes. Vision problems are one of the most prevalent disabilities in the US, making vision care especially useful for anyone who regularly needs to purchase eyeglasses or contacts, or anyone who simply wants to protect their eyesight and general health.

Vision

David notices that his vision is deteriorating. He goes in for an eye exam, and is diagnosed with myopia, also known as nearsightedness, which means he needs glasses. He can now save on glasses and contacts.
