Wall Planning GROUP

Anthony Elliott comes to Wall Planning Group with exceptional social impact, community consultation, reform leadership, program implementation, and project management experience. Anthony's experience has been honed through community-driven, innovative health advisory and management roles, which have provided him with an on-the-ground understanding of communities, their people, and their needs.

Anthony's knowledge is backed by an incredible career, having been Chief Executive Officer of the Community Information Support Services, the General Manager Primary Health for Primary Health Networks, and now General Manager of the National MyMedicare Implementation Program.

Anthony has served as board member for the Primary Health Community Information Exchange Advisory Board and the Centre for Business and Economics of Health Advisory Board. He is an Associate Fellow with the Australian College of Health Service Management.

As a part of Wall Planning Group, Anthony consults on matters of business strategy and development, social and health impact, major project management, and plays an integral in the quality assurance in the company.

CAREER HIGHLIGHTS

National PHN MyMedicare Implementation Program – MyMedicare commenced implementation in 2024 as a voluntary patient registration model introduced by the Commonwealth. Anthony's role in the implementation is General Manager at Brisbane North PHN.

Country to Coast Queensland – During Anthony's time with Country to Coast, he led programs to improve primary health care services as well as review, development and implementation of organisational transformation and strategic alignments. Anthony developed the Organisational Capability Framework.

Community Information Support Services – In his role as Chief Executive Officer, Anthony led and managed the organisation's business development, growth, performance, stakeholder engagement, compliance and policies.

Brisbane South Primary Health Network (PHN) – As General Manager Primary Health and Manager Innovation and Integration, Anthony developed and implemented the Brisbane South PHN Primary Health Transformation Plan, primary health team restructure, and the national primary health 10-year plan. During this period, Anthony was involved in executive organisational leadership for COVID Response and Disaster Management.
