his Park Model RV, Model 531, is thoughtfully designed with two comfortable bedrooms. The bedroom sizes are 7'9" x 10'6" and each bedroom has pocket doors. There is also a built-in dresser in each room between the his-and-hers closets with bi-fold doors. The living room is centered in the house, with a 36" entertainment center. There is a built-in pantry by the front door for extra linen storage. In the kitchen, you'll find a stainless-steel double-basin sink. It will also have a standard 18 cu ft black refrigerator paired with a black electric coil oven range. The standard bathroom has a 54" tub with an in-swing bathroom door. The exterior starts with smart-panel siding and a galvalume roof. The interior will have an 8/12 vaulted roof line.

Popular options include:
-Clear-story window options for the living room and kitchen area
-10-foot flat ceilings as an upgrade instead of the standard vaulted ceiling
-Several appliance package upgrades to choose from
-The option of omitting closets and dressers by replacing them with at least one dowel rod and shelf in the room
-Upgraded tile shower options instead of a bathtub
-Sliding glass doors or French doors as a popular upgrade that can open from the bedroom end walls onto a deck
-Up to 10 feet for a bedroom deck on each end of the home
-Omitting the entertainment center in favor of mounting the TV
-Upgrading the front door with blinds or a storm door
-A popular option is placing the washer/dryer where one of the closet sections are.
