- *We do not use any salt in the preparation of our meals.*
- *We do not use refined sugars and keep the use of natural sugars to a minimum.*
- *Tall Trees uses high quality ingredients which are mostly organic or locally sourced, our chef prepares each meal daily from scratch in the onsite Tall Trees kitchen.*
- *We do not use processed meats.*

## Our Local Suppliers

### **Brown Cow Organics**

Organic Yoghurt locally made naturally low in sugar and made with real vanilla pods. This Yoghurt contains superior A2 beta Casein protein rich whole milk from their dairy Guernsey Herd. It is suitable for many Lactose intolerant diets.

### **Ivy House Farm**

Non-Homogenised organic jersey milk fresh from the heart of Somerset. Hand patted on-site butter. Ivy house have been a certified organic farm for over 20 years.

### **Essential Trading Cooperative**

Organic and ethical wholesome dried goods supplier. We use it for all our organic dried goods such as- Olive oil, pulses, whole wheat pasta, oats, couscous etc.

### **The Community Farm**

The Community Farm is a nature-friendly not-for-profit social enterprise based in the Chew Valley. Everything we grow is organic and we are regularly inspected by the Soil Association. We propagate almost all of our crops here on the farm and our warehouse is located right next to the fields, allowing us to get crops from the field to the fridge in a very short amount of time, ensuring maximum freshness! Anything we're unable to grow on site comes from our close network of organic producers and local farmers who share our ethics.

### **Lye Cross Farm**

Cheesemakers since 1952, Lye Cross Farm are proud to produce Cheddar cheese in the heart of the West Country. Situated in an area of outstanding natural beauty, Lye Cross Farm has 4,300 acres of the best pasture land in the world, which is home to a herd of 1,200 dairy cattle.

## The 'SUPER FOODS' we use in our meals

- **Organic Beans and Pulses** - Full of Fibre, Calcium and Protein they are also excellent at keeping blood sugar levels constant. Thus, helping provide constant energy levels for the children.
- **Quinoa** - Quinoa is naturally gluten-free and contains iron, B-vitamins, Magnesium, Phosphorus, Potassium, Calcium, vitamin E, and fibre. It is one of only a few plant foods that are considered a complete protein, containing all nine essential amino acids.
- **Organic Milk** - contains higher levels of Omega-3, Vitamin E, Vitamin A and Antioxidants than non-organic milk. It also contains no traces of pesticides or antibiotics.
- **Buckwheat** - Buckwheat is an extremely highly nutritious food source and is a fruit seed as opposed to a grain. It contains powerful antioxidants, flavonoids and magnesium and is naturally gluten free.
- **Wholegrain Pasta, Rice and Flour** - Contains more Protein, Vitamins and Minerals than refined White flours, pasta, rice. Also supplies 'slow release' energy.
- **Oily Fish** - We use Mackerel and Salmon. Evidence shows that the oils found in these fish can boost mental and physical health.
- **Barley** - A wholegrain packed with nutrients, rich in vitamins, minerals, and other beneficial plant compounds as well as antioxidants.
- **Rice Warning** - Parents, please be aware that it is not advisable to give children under the age of 5 frequent servings of brown rice as it contains trace elements of arsenic which can build up in a child's system. White rice is a safer option, and we only use it very sparingly on our menu. We also use chickpea and lentil rice as a highly nutritious alternative.

**Disclaimer – We handle allergens within the setting and cannot 100% guarantee there will be no risk of cross contamination. We reserve the right to change the menu at any time.**
