

BL SERIES DC

Recreational, Worksite & Emergency Applications

EXINLIGHT
By DEEPS ENGINEERING

BL4000DC - BL8000DC - BL16000DC

The BL Series BL4000DC, BL8000DC & BL16000DC are high lumen, area illuminating lights. Producing 4,000, 8,000 and 16,000 lumens respectively, they provide 360 degrees of uninterrupted glare free illumination, giving off a continuous source of light.

This model boasts a Lithium Iron Phosphate (LiFePO4) battery, which is specially developed to handle high discharge currents and boasts an impressive 5,000 cycle recharge life. Coupled with up to 30 hours of run time on a single charge, this light is built to last.

The BL Series bodies are constructed using an automotive type ABS, making the light highly durable with a solid and robust construction. The illuminating tube is made from a light diffusing polycarbonate which maintains a constant glow, fully lighting up your work area.

Lightweight and easy to use, the BL Series DC range is the perfect companion for your camping or fishing trip or for your worksite, and the flash function is ideal for emergency services. The purpose made carry bag makes transporting the light even easier.

A built in USB charging port allows the user to charge phones, tools or other devices while on the go, all made easier with a handy carry bag.

The base hosts four M6 brass inserts which allow for an optional tripod attachment.

	BL4000DC	BL8000DC	BL16000DC
Gross Weight (kg)	5.4	6.1	7.3
Net Weight (kg)	4.8	5.3	6.3
Height (mm)	790	1030	1630
Width (mm)	200		
Voltage AC/DC	100-240V AC - 19.2V DC		
Battery	19.2V Lithium Iron Phosphate (LiFePO4)		
Light Type	LED		
Light Head	360 Degrees Direction		
Lumens	4000	8000	16000
Charging Time (hrs)	4-5		
Battery Run Time (hrs)	Low: 28-30 High: 14-16	Low: 16-18 High: 8-10	Low: 9-11 High: 5-6
