

IN1000L 'TRAVELLER'

Recreational & Domestic Applications

EXINLIGHT

By DEEPS ENGINEERING

The IN1000L Traveller is the compact version of our EXIN Light Range. It's perfect for Recreational Activities like Camping, Fishing, 4WD adventures, and Backyard Entertainment. It's also ideal for DIY Home Improvements and useful for unexpected emergencies, such as power outages. Despite its small size, the Traveller can run for up to 12 hours on a single charge, utilizing a rechargeable 12V 9Ah Lead Acid battery pack.

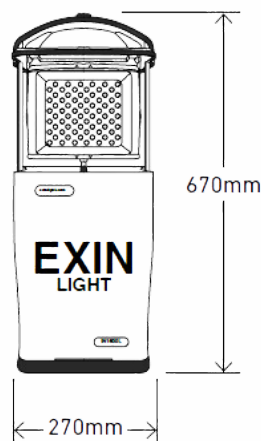

Optional Extra: 12V DC Car Charge for on the go charging.

The Traveller delivers an impressive 1000 lumens of light.

This single-sided light head includes an emergency flash function and is designed to accommodate a clip-on lens

The Traveller is constructed using ABS, ensuring durability with its robust, solid build. It boasts an IP65 rating, making it suitable for both wet and dry environments. The shock-absorbing rubber base and lid seals provide additional protection to the light head
