

# Your AI-First Data Partner

## MODERNIZE YOUR LEGACY BIG DATA STACK

Discover.  
Migrate.  
Modernize.

Organizations modernizing their Informatica On-Premise Big Data Management platforms (BDM / DEI / BDE) rely on aiDataWorks for proven cloud modernization. Our phased approach modernizes legacy big data environments into Informatica IDMC-based cloud architectures, designed for speed, accuracy, and continuity.

### WHY MODERNIZE

-  Legacy BDM platforms require high operational effort
-  Manual migrations increase risk and downtime
-  >75% of modernization projects fail due to lack of AI.
-  Lack of Innovation in On Prem Products
-  Growing Security Risks on legacy platforms

### ADVANTAGES

-  AI Enabled Implementation - Unleash Cross Platform Agentic Benefits
-  Higher efficiency and quality with faster ROI
-  Unlock the power of fully integrated IDMC Data Management Cloud
-  Cross-cloud platform & cloud warehouse support
-  Phased modernization approach ensuring business continuity
