

GFNELT/TR Series

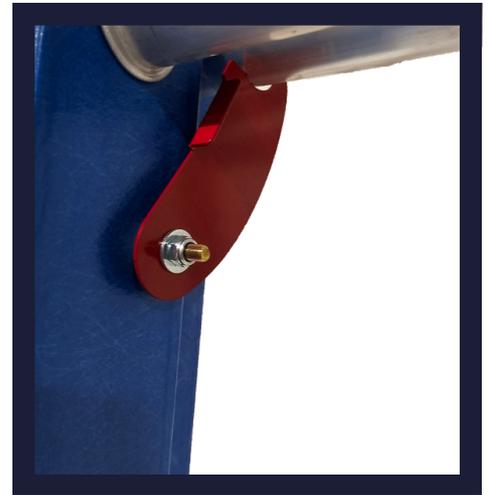

Ensure maximum safety, comfort, and efficiency for electrical and general tasks with the UK-made GFNELT Glassfibre Extension Ladders, designed for superior non-conductive performance and durability.

Key Benefits

- **Non-Conductive Safety:** Ideal for electrical use, providing enhanced protection.
- **Dual Purpose:** Secure locking mechanism allows this ladder to be used as an Extension or Trench Ladder.
- **Smooth Ease of Use:** Attached wheels allow for smooth manoeuvrability.
- **Premium Construction:** Based on our market-leading Telecoms design, and built from high-quality glassfibre for longevity.
- **Green Manufacturing:** Recycled Low-Carbon Aluminium 4.0 rungs with a reduced environmental footprint.
- **Comfortable Climb:** Strengthened D-shaped rungs provide much more comfortable climbing and standing compared to square rungs.
- **Stabiliser Bar:** Aluminium stabiliser bar increases stability, reducing slip risk (larger sizes only).
- **Multiple Sizes:** Available in single, double, and triple sections for various tasks.

Available in 6 sizes

Specifications

Code	No. of Sections	No. of Rungs Per Section	Weight kg	Closed Length mm	Extended Length mm	Max Standing Height mm*	Approx. Working Height mm*	Stabiliser Width mm
GFNELT125	Single	8	7.5	2540	2540	1790	3540	N/A
GFNELT130	Single	11	9.0	3330	3330	2580	4330	1010
GFNELT225/TR	Double	8	15.0	2540	3900	3150	4900	1010
GFNELT230/TR	Double	11	18.0	3330	5330	4580	6330	1010
GFNELT325/TR	Triple	8	22.5	2540	6000	5250	7000	1210
GFNELT330/TR	Triple	11	28.0	3330	7320	6570	8320	1210

*Where applicable, the Approx. Working Height is calculated by adding 1750mm (5'8") to the Max Standing Height.
