

OneLyte Series

The OneLyte Industrial Tower offers unbeatable convenience, designed for one-person assembly with heavy-duty performance. This UK-made tower is perfect for industrial tasks, providing a secure, compact platform with an impressive load rating for enhanced safety and efficiency.

Key Benefits

- **Quick Assembly Time:** Easy setup by one person, reducing labour costs.
- **Heavy-Duty Capacity:** Overall capacity up to 950kg, each deck has a maximum capacity of 275kg, suitable for demanding industrial use.
- **Compact Design:** Small footprint with a 1300x800mm deck, ideal for tight spaces.
- **Portable:** The base also serves as a storage and transport trolley, keeping all components together for easy transport between job sites.
- **Certified Safety:** Certified to EN1004-2020 standards, ensuring safe and compliant operation.

Available in 4 sizes
