

TRL Series

Experience unmatched stability, durability, and ease of use with the UK-made TRL Trade Roof Ladders, designed to make working at height on roofs safer and more efficient for trade professionals. The market-leading TRL is purpose-built to tackle the unique challenges of working on sloped surfaces and is used by industry-leading utilities providers, satellite installers, and Hire companies.

Key Benefits

- **Secure Roof Placement:** Equipped with a heavy-duty ridge hook for exceptional stability on any roof surface.
- **Roof Protection:** Rubber bearer bars evenly distribute weight, preventing roof damage while you work.
- **Enhanced Safety:** Industrial non-slip circular rungs provide secure footing during use on pitched roofs.
- **Ease of Use:** Wall-running wheels added to the heavy-duty ridge hook for easy positioning.
- **Lightweight and Durable:** Aluminium roof ladder with box section stiles is lightweight without compromising strength.
- **Green Manufacturing:** Non-slip rungs produced with UK-sourced Recycled Low-Carbon Aluminium 4.0.
- **Multiple Size Options:** Available in single and double sections with a locking safety catch for additional security.

Available in 8 sizes

Specifications
